Greek Warplanes Inflicting Losses On Guerrilla Forces

International Brigade Reported Joining Rebels on North Border

ATHENS, July 12 (Saturday) (AP)—The Greek Ministry of War announced early today that army, air force and artillery units were inflicting heavy losses on guerilla forces in a battle on Mount Grammos. Press reports from Salonika said an International Brigade had appeared on the guerrilla side in another clash north of Kozane.

The Ministry's report said guerrilla resistance points were being wiped out one by one in a battle of increasing violence on Mount Grammos and that casualties were heavy.

Press reports from the Kosona region, south of Mount Grammos, said 150 guerrillas had been killed and told of discovery of a unit of 120 members of an international brigade taking part in the action. No details of the brigade's composition were given.

This was the first news of an international brigade actually participating in the Greek strife, although its appearance has been expected for several months since European Communist organs predicted its formation.

Mount Grammos is in the Albanian border area where a Greek Cabinet minister said Friday the guerrillas were trying to establish a Communist state.

A General Staff communique said the Greek army-air force action westward despite stiff resistance by guerrillas who were using a "great" number of rifles, 10,000 rounds of ammunition, 18 mules of which 12 were loaded with ammunition seized.

The Greeks said that a force of some 4,000 guerrillas was fighting on the 8,000-foot peak of Mount Grammos only 15 miles from Albania.

Washington reports said the United States is speeding an initial shipment of equipment of artillery, combat vehicles and other military equipment to Greek armed forces before actual reconstruction efforts in Greece get into full swing.

Paul Porter, Greek chief of the American Economic Aid Mission, announced the move today on the eve of his departure for Athens. He said the shipment is going on an "airlift-by-boat" basis to overcome Greece's internal security in Greece is a vital part of the $300,000,000 enterprise.

Troops Pile Sandbags Along River

Save 25,000 Acres Of Manitoba Crops

WINNIPEG, July 12 (CP)—With more than 20,000 acres of crop land near Baie St. Paul, about 30 miles west of here, reported saved, legweary flood-fighters moved west to Poplar Point where the swollen Assiniboine River now is even with the newly-constructed emergency dikes.

Crisis point was the swampy bushland along the river's north bank about two miles west of Poplar Point. Early this afternoon, farmers and a new list of soldiers from Camp Shilo, Man., and Osborne Barracks at Winnipeg, appeared to be winning their long battle in the mosquito-infested area, piling mile of sandbags to bolster the dikes. The soldiers at Baie St. Paul reported to Winnipeg late last night and fresh men went out to Poplar Point today.

Three main danger points are being watched. One point was relieved for half a mile by soldiers yesterday who washed through waist-deep water to pile in more than 1,000 sandbags.

Haggard from lack of sleep, farmers in the flood areas praised the army. Reeve Jack Bend of Poplar Point said, "A great deal" of this is to explain the feeling of relief we have to see these men regarding of the water which could easily have wiped out our homes."

Sees No Hope for Cut In Costs at Braefoot

There is "absolutely no hope" of the Department of Veterans' Affairs granting reductions in the cost of veterans' houses on the Braefoot Estate, Maj.-Gen. G. R. Pearkes, M.P. for Nanaimo, said on his return to Victoria from Ottawa yesterday.

"I was assured by Veterans' Affairs Minister Ian Mackenzie in person that it left the capital that the department had no intentions of making any reductions," said Maj.-Gen. Pearkes.

The member stated that as far as he could ascertain, repairs to the Braefoot homes as promised by the department "have just about been completed and are satisfactory."

"If the Braefoot veterans are still dissatisfied," Maj.-Gen. Pearkes continued, "I have recommended that they follow the example of veterans by similar Veterans' Land Act projects in Eastern Canada by placing evidence before the Veterans' Affairs Committee of the House of Commons," he said.

If they intend to do this, he added, they "should sign no contracts with the Veterans' Land Act Farm Affairs in regard to the houses."

Maj.-Gen. Pearkes said he was disappointed" with the Dominion Government's Old Age Pensions Act passed by the House of Commons which "should have gone further."

He said the session in the House which ends next week, had been an extremely interesting one because it reviewed all orders in Council and other legislation passed during the war and was one of change from wartime to a peacetime basis.

The many improvements slated for Victoria and other parts of Vancouver Island as shown in the supplementary estimates were also viewed with approval by the Nanaimo member.

A new labor code, which the Dominion Government is considering, will be introduced in the autumn session of the House, said Maj.-Gen. Pearkes. He was "extremely confident" he got the opinions of his constituents on this important piece of legislation.

Five Negroes Slain by Shots

BRUNSWICK, Ga., July 11 (AP)—Five negro convicts were shot to death and eight others wounded, two critically, at a state highway work camp today in an escape attempt, Warden W. O. Worthy said.

The warden declared that five prison guards and three county policemen with shotguns and rifles at 21 negro convicts when they made a break for a 12-foot fence enclosing the prison camp at Angelica, 12 miles northwest of Brunswick.

The warden said a group of the prisoners joined the camp Thursday, were sent out today to work on a highway, and refused to work. Brought back to the camp, they declined to get out of the trucks.

When they did, they were lined up in the prison enclosure. Warden Clifton County Police Chief Russel Thompson thereafter said, the convicts they hooks and ran, diving under the barracks which stands about two feet off the ground.

The prisoners crawled on under the building and ran toward the fenced enclosure on the other side.

Officers then opened fire on them with shotguns and rifles.

Property Bought by Lions Club For Proposed Sunset Cottages

Property costing $5,000 in the Gorge district has been purchased by the Victoria Lions Club for the "Sunset Cottages" project, it was announced yesterday by Jack Beedham at a luncheon meeting of the club at the Empress Hotel.

Plans for the establishment of small but comfortable cottages for elderly couples of the Greater Victoria area.

It is hoped, said Mr. Beedhouse, that a campaign will soon get under way to raise funds for the community project.

President James Roberts said no further details would be released until additional survey work had been completed, and a definite decision had been reached regarding the committee members who will handle the project.

It was reported the Provincial Government is to contribute one-third of the total cost.

With Mr. Beedhouse on the committee, which has been working for the past several months, are Alex Henderson and William Taverner. The committee feels sufficient groundwork has been completed to warrant a full-scale publicity campaign.

Members of the committee hope the "Sunset Cottages" scheme will become the main objective of the club in the future.

Among guests attending the meeting was James Bagley, president of the Tacoma Lions Club.

Transparent Ballot Boxes in Spain

These are among the first pictures from the Spanish ballot front. The people there recently voted to overturn Franco in office as Caudillo and to allow him to select their successor. At the top are what are re-ported to be the ballot boxes they used. Yes, they do look transparent. The lower picture shows people in Madrid gathering at a voting booth. The voting compulsory, was reported to have brought out quite a good vote with a large number coasting for Franco.

North Loggers Contract Near

PRINCE GEORGE, B.C., July 11 (CP)—Contract negotiations covering approximately 8,000 Northern Interior loggers were settled here today, providing for a 12½ cents an-hour wage raise and retention of the 44-hour week.

The agreement, when formally approved by some 350 logging operators and the International Woodworkers of America (CIO-CCL), will mark general settlement of contract negotiations for the major part of the province's industry.

Final negotiations, covering 4,000 Southern Interior lumber workers, are slated to open in Kelowna, B.C., next week.

Today's settlement included the elimination of all "range rates," so that new employees now will get full "job rates."

Wage rates for 23 job categories have been revised from two to 21 cents an hour as well as the general increase.

B.C. Plans Test Of Labor Code

VANCOUVER, July 11 (CP)—In a total more expected to test the strength of the new provincial labor code, the British Columbia Labor Department today charged the National Electrical and Confection Company with illegally dismissing its employees.

Action also will be taken against the plant superintendent, Harry Bradley, who allegedly prevented employees from joining a union.

The charge is that the company laved the workers off in a move intended to "induce" other workers to refrain from joining a trade union.

Bradley and five company representatives are to appear in police court July 23 to answer charges.

Ignored Call To Fight Fire

BURNS LAKE, B.C., July 11 (CP)—Ignored by the citizenry of the city, a charge laid under the Protective Act here today and fined $20 and costs. The charge arose after Newman was called upon to help fight a forest fire but failed to report.

City Sisters, Friend Injured in Accident

Three sisters and a teen-aged girl were rushed to Royal Jubilee Hospital last night following an accident at Mendies and Superior Streets.

Injured were the Campbell sisters, Gladys, 26 Carolyn, 18, and Pauline, 16, all of 330 Montreal street, and Noreen Parker, 16, of 500 Niagara Street.

According to city police, the four injured persons were being driven south on Mendies Street by their brother, Jonathon Campbell, at 11 p.m. when the car was in collision with a taxi driven east on Superior Street by Hugo F. Rasmussen, 322 Edward Street.

One passenger in the taxi and the driver were not injured, but police said both cars were badly smashed. Campbell also escaped injury.

Three police patrol cars and the ambulance were dispatched to the scene. Constables J. Strong and George Grahamuk took Gladys Cowpersmith, who was most seriously injured, to the hospital. Constable Ray Maitland gave first aid to the others before they were taken to hospital by Constables H. Berry, G. Morris and Bill Reekie.

Sgt. Tom Harrison and Constable A. H. Purgeon investigated the accident.

Carolyn Cowpersmith suffered injuries to the left leg and shoulder, but was later released from hospital. Pauline Cowpersmith received injuries to the right leg and head. Noreen Parker complained of severe back injuries. Hospital authorities said all are only hour this morning that Gladys Cowpersmith suffered fractured ribs and back and shoulder injuries.

37 Polio Cases In Vancouver

VANCOUVER, July 11 (CP)—Three more cases of poliomyelitis were reported today bringing total number of cases in the Greater Vancouver area this year to 37, highest in the history of the city and highest hit in Canada this season.

A third-floor quarantine ward at Vancouver General Hospital, closed for the last year, was opened today, releasing another 30 beds to help cope with the outbreak. Nurses were being transferred from private ward duty.

Dr. S. Stewart Murray, Vancouver Medical Health Officer, said the incidence of the disease had reached "epidemic proportions and would "have to be watched." It appeared there were many sources of the disease in the province.

The full-year record high incidence of the disease in Vancouver was set in 1610 when 30 cases were reported.

Declare State Of Emergency

CAIRO, July 11 (AP)—The Government declared a state of emergency in Cairo today and quelled an attempt of a Wafdist youth organization to demonstrate against Britain in the Mosque of Al Azhar Square.

Rain Controls Forest Fires

VANCOUVER, July 11 (CP)—British Columbia Forest Service officials here reported today that 16 small fires in the Vancouver forest area have been brought under control by general rain over the area.

The largest fire covered 150 acres on a logging operation near Hope B.C. and employees of the Comox Logging Company expect to bring the fire under control today, even without the assistance of rain.

Forestry officials said that they are continuing the partial closure of the Sayward forest on Vancouver Island, and travelers still must obtain a permit before passing through the area.

Nine forest fires have been reported along the Pacific Great Eastern Railway right-of-way and four small fires have been burning on Vancouver Island.

Warn Tourists Of Conditions

Visitors to Vancouver Island are being warned by local travel agencies that road conditions on the Island highway, particularly north of Nanaimo, call for cautious driving.

"We are telling them that roads up-Island are dusty due to road construction in the provision of a first-class highway," George E. Warren, Publicity Bureau commissioner, said yesterday.

He added that the bureau was advising motorists to drive carefully and slowly at present, but that conditions were improving every week.

Nations Meeting Today To Study Marshall Plan

States In Soviet Sphere Remaining Aloof As Western Europe Seeks To Rebuild Economy

PARIS, July 11 (AP)—Sixteen countries of Western Europe tomorrow will launch an attempt to rebuild their war-torn economy with the promise of United States aid. Soviet Russia and the states within her orbit will not participate.

Emphasizing the gravity of the split between East and West, Russia will be absent from a major conference involving the future of Europe for the first time since the end of the Second World War.

Diplomats gathering for the open-ing meeting of the Marshall plan conference at 11 a.m. (5 a.m. C.S.T.) tomorrow, said they were convinced the Soviet Union was out to break the Marshall program if possible at least limit its effectiveness.

Russia refused to act with Britain and France as a sponsoring power and eight countries now tied to the Soviet orbit rejected invitations issued by Britain and France.

Finland was last to decide. It cannot turned down the invitation this morning.

A communique said that Finland "regrets that it cannot accept the kind invitation."

Czecho-Slovakia alone of the Russian bloc accepted, but later withdrew under what western diplomats said was Soviet pressure.

With the exceptions Britain and France were the countries attending the conference will be Austria, Belgium, Portugal, Eire, Greece, Turkey, Luxembourg, Iceland, Netherlands, Italy, Sweden, Switzerland, Norway, Denmark.

Meanwhile the United States army has on the eve of the conference, ordered a secret boost in the European recovery today with the announcement that an effort will be made to increase Germany's vital coal production.

The State Department said that in response to American invitations 22 European countries will send delegations to Washington to discuss Axis arrests while oil duties. The order was issued by the provost marshal of the conquered Reich. The tasks are directed to begin in 10 days.

Soviet Aid Possibility

MOSCOW, July 11 (CP)—Prospects of Soviet aid for European countries—especially those which do not eventually associate themselves with the Marshall proposal appeared to-day to have been given a distinct possibility.

On the eve of the Paris conference, Russian press and radio maintained previous attacks upon the American offer, but including new points.

The Soviet view on several issues was more clearly outlined.

1. The prospect that Russia may offer aid in one form or another to European nations. Previous dispatches have suggested this aid might take the form of grain, industrial goods and machines in the case of ex-enemy nations of reparations.

2. A growing belief by the Russians that really they never were in the arrangements that

Soviet Newspaper Raps Government

MOSCOW, July 11 (AP)—The Soviet trade union newspaper Trud devoted a leading editorial and a full page of type today to criticism of Government offices and mismanagement which, it said, hinder efficiency, rudeness to visitors, delay in carrying out decisions and lack of office discipline. Trud, one of the most authoritative of Soviet newspapers, called upon the Government offices to clean house and end petty bureaucracy.

Ferry Service Will Continue

Neither the Chinook, serving Puget Sound ports and Victoria, nor the Chippewa, on the Seattle-Victoria run, will be affected if the Black Ball Ferry line fleet is tied up as a result of the labor dispute in Washington State, Capt. A. M. Peterson, manager of the ferry line, said in a telephone interview from his Seattle office yesterday.

Capt. Peabody has threatened to tie up all ships owned by the company on August 3 unless the Washington State Transportation Commission decision to reduce ferry rate increases from 30 to 10 per cent is altered.

"The commission holds no jurisdiction over international ships," Capt. Peabody said.

The Chinook, making frequent trips each day, carries 700 passengers and 50 automobiles. The Chippewa making two trips daily between Sidney and Anacortes, carries 60 automobiles.

Two British Sergeants Kidnapped

Warning Letter Sent Jewish Underground

JERUSALEM, July 12 (Saturday) (AP)—It was reported today that two British Army sergeants had been kidnapped from a cafe at Nahariya shortly after midnight.

Tel Aviv radio Friday operated a letter addressed to the head of the Stern Group and found inside a British soldier's cap. The Stern underground organization against forcible British soldiers. The letter was signed "Jewish Revisionists in Britain."

Further evidence of British soldiers in Palestine" the letter declared "must result in arousing revenge feelings against their former comrades in Britain."

British military authorities meanwhile lifted an evening curfew order which for the last two weeks had held a haunted British soldiers from Tel Aviv streets while off duty. The order was imposed after two soldiers had been shot and killed by unidentified persons

Egypt Demands Britain Remove Troops at Once

LAKE SUCCESS, July 11 (CP)—The Egyptian Government today declared Britain is pursuing a policy toward Egypt and demanded that the United Nations order the evacuation of all British troops immediately. Egypt warned that continued presence of British soldiers threatened world peace.

In a bristling complaint to the Security Council, the Cairo Government said Britain was taking advantage of the international crisis to maintain troops "in Egyptian territories against the wishes and will of the people."

Egypt said that the Anglo-Egyptian treaty of 1936 covering the presence of troops "cannot bind Egypt now that the Hitler-Axis-Army" no longer exists. The treaty provides for withdrawal of British troops by 1949. No troop figures were given.

The Egyptian charges reached the council while Britain was laboring to Bulgaria across the United States of intimidation in seeking to establish a United Nations border agency over the Balkans.

Dr. N. Mevorah, Bulgarian representative said American Delegate Warren R. Austin's wandering into the council might have to revert to the days of "gunboat diplomacy" was not established was intimidation.

Lost Files Held Atom Negatives

WASHINGTON, July 11 (AP)—An official of the Congress said tonight that the atomic documents and files taken from the Los Alamos, N.M., atomic energy plant were actually negatives of photocraphs of parts of the atomic bomb.

This official added that Federal Bureau of Investigation agents still are checking the two arrgentia, who took the negatives, to learn if any Publicity Bureau investigation.

An atomic energy commission official said tonight that all missing files had been recovered.

The Congressional source said that he had been told that the Justice Department has not completed the arrgents because it then ruled the arrgents because it then ruled the arrgents necessary in bring into court the actual atomic bomb negatives for possible public display.

Violent New Explosive Would Send Objects Hurtling Upward -- To Stay

SAN FRANCISCO, July 11 (AP)—An extremely violent explosive which will reverse the force of gravity has been disclosed as the power by which mankind expects to hurl the first objects off the earth to become permanent satellites.

Like the moons, these tiny satellites are destined to circle the globe constantly 300 to 600 miles out. They are intended to show the way for the construction of larger satellites which may help solve the mysteries of matter beyond our atmospheric curtain, and perhaps hasten the age of interplanetary rockets.

To shoot objects into the sky with early force that they never would return to earth requires a form of energy that will give a projectile speed of seven miles a second, or 25,000 miles an hour.

Leaving out atomic energy as unsuitable to present plans, there was nothing on record until lately that would give an object such terrific speed. The V-2, greatest of the German rockets, is rated at 3,600 miles an hour, only one mile a second.

The new explosive appeared in the print, buried in a report by Dr. Frits Zwicky, Mt. Wilson astronomer in the publications of the American Physical Society of the Pacific.

Zwicky is a self-styled hollow charge of possible. Penolite is a tested-down form of one of the

Ex-King Carol Wed . . . Bride Dying

THIS photo, one of the most recent of the couple, was made during a motorboat trip of former King Carol of Romania and his titian-haired girl friend, Magda Lupescu, shortly before the latter was stricken with her present illness. The playboy ex-king and Mme. Lupescu were married in the modest hotel suite at Rio de Janeiro where the bride is reported near death from anaemia. Carol is said to have decided on immediate marriage after doctors diagnosed her condition as "very grave."

Britain to End Her Dollar Pool And Convert Sterling Balances

OTTAWA, July 11 (CP)—As previously undertaken, the United Kingdom next week will end the dollar pool of sterling countries and hereafter make sterling balances on current transactions convertible into United States or Canadian dollars.

However, Government officials do not anticipate important change in Canada's economy, as Britain already has been gradually taking steps to implement four conditions set out in the financial agreement with the United States for a loan of $3,750,000,000. The four undertakings become effective July 15, one year after the effective date of the agreement.

Britain agreed to:

1. End the dollar pool in sterling countries, thereby allowing each country to control such dollar receipts as might come into its possession.

2. Freely exchange all sterling balances resulting from current transactions within the sterling block into currencies of other countries.

3. Convert into dollars sterling credits which countries outside the sterling block obtained as result of their current trade with the United Kingdom.

4. Complete negotiations whereby large sterling balances accumulated in London by sterling countries during the war would be divided, portions being made available for conversion into other currencies immediately after July 1, and the remainder released for conversion in installments over a period of years, beginning in 1951.

Financial experts say the actual month-to-month trading between the United Kingdom and Canada is not likely to be affected materially by fulfillment of these conditions. While the changes generally may increase the drain on Britain's desperately-short supply of United States dollars, the increase will not be as great as might be expected.

In the first four months of this year Canada had a favorable balance of roughly $135,000,000 in her trade with the United Kingdom, being the difference in the value of the goods Canada supplied Britain and Britain supplied Canada. This does not mean that Britain will find trouble balancing accounts, because she has earnings from investments here and services supplied to Canada.

Each month the balances are estimated and British and Canadian finance experts negotiate what part of the balance is to be covered by withdrawals from the $1,250,000,000 Canadian loan to Britain and what part covered by sterling that becomes convertible into Canadian or American dollars.

As Canada had an adverse trade balance of $296,300,000 with the United States for the first four months of this year, any part the United Kingdom can pay in American dollars will be a great help. The amount the United Kingdom pays each month in United States dollars is a closely-guarded secret, but Finance Minister Abbott said in his Budget speech that Canada received last year in American dollars from its overseas trade a total of $237,000,000 and it is assumed the bulk of this came from Britain. It is known that her payments this year have been greater.

Berth Too Short, Actor Won't Sail

NEW YORK, July 11 (AP)—Actor Dennis Morgan walked down the gangplank of the Mauretania today, saying he would not sail on the Southampton-bound liner because "my feet stick out over the edge" of the berth.

Morgan, placed in a cabin with two other men, was the last of the three to board. His cabin mates had taken the two beds, leaving him an upper berth.

The actor, en route to France to make a picture, said he would fly to Paris Monday.

Princess and Future Husband Hold Hands at Cricket Game

LONDON, July 11 (CP)—Princess Elizabeth's engagement, and the Royal Family's daily round of activities remained front-page news in Great Britain today but on a more restricted scale.

Reporters and gossip writers were hard put to find something fresh to write about the princess and her fiance, Lieut. Philip Mountbatten, and the public was becoming accustomed to the idea of the Empire's darling marrying the handsome young officer.

Crowds still hung about before Buckingham Palace, awaiting the Royal Family's comings and goings, raising a cheer whenever a member of the family drove in or out, but the number of onlookers was much decreased from last night.

The princess and her future consort made one informal public appearance when with the King and Queen and Princess Margaret she visited Lords for an hour in the early afternoon to watch the Eton-Harrow cricket match. The crowd gave them a great cheer—unusual in stately Lords—on arriving and leaving. Papers splashed pictures of them at the game and noted the fact the Princess Elizabeth was holding hands with Philip as they entered the cricket grounds.

The crowds at the palace gates pressed around the royal motorcars when they left for Lords and again on their return and saw the princess—riding in the second car of the entourage beside Philip—wave a happy greeting in reply to their welcome.

The scenes were a virtual duplicate of the morning leave-taking and return to the palace when Princess Elizabeth and Philip went without other members of the Royal Family to visit the bridegroom-to-be's mother, Princess Alice of Battenburg at Kensington Palace.

Later in the day the King and Queen, the princesses and Philip left for the Royal Lodge at Windsor to spend the week-end.

Meanwhile details about the forthcoming wedding — even the date—remained unknown and were not expected to be announced until next week.

Three Missing In Severe Ontario Blaze

PETERBOROUGH, Ont., July 11 (CP)—Fire Chief George Gimblett tonight estimated damages at $1,500,000 as firemen began search of the smouldering Whitaker wool warehouse for bodies of three men missing and believed dead.

No bodies were found on the main floor of the plant, scene of a fierce blaze which started with a wisp of smoke and saw huge supplies of stored wool going up in flames.

Missing and believed trapped in the inferno were three employees of the O. Whitaker Company: James Hawthorne, 48, timekeeper; George Colbran, 42, grader, and George Clements, laborer.

The fire destroyed the wool warehouse estimated to contain stock worth between $500,000 and $750,000. Heavy damage also resulted in the adjoining Dewart mill property.

Cause of the fire will be investigated when officials are able to interview those who escaped. Dense clouds of smoke were still pouring from the wreckage tonight.

Employment Goal Reached

WASHINGTON, July 11 (AP)—The one-time "dream goal" of 60,000,000 civilian jobs has been attained—and bettered—for the first time in the nation's history.

A Census Bureau report showed today that the number of civilians with jobs rose to a record high of 60,055,000 in June, surpassing even the war years.

Combining that number with 1,398,000 in the armed forces, it puts the total number of Americans working for "pay or profit" at 61,453,000.

Civilian employment in June shot up 1,730,000 over May—which had been a record-setting month itself—and was 3,700,000 above June of last year.

A more than seasonal upswing in farm activity accounted for 1,420,000 of the May-to-June rise, but a 210,000-job gain in non-farm work loomed as far more significant in the view of Government analysts.

Some economists described it as "driving the last nail in the coffin" of earlier forecasts of a business recession this Summer.

The rise in unemployment was 600,000, lifting the total to 2,555,000. But even so, the Census Bureau said, there were 10,000 fewer unemployed than a year ago.

Flames Endanger Spawning Areas

SEATTLE, July 11 (AP)—Under direction of fish and wildlife service leaders, a fire-fighting expedition of small boats manned by Alaska salmon industry workers was being assembled on the Kenai River in Alaska today to aid in fighting the huge forest fire there, W. C. Arnold, managing director of the Alaska Salmon Industry Inc., said.

Attempts will be made to stop the flames where they endanger salmon spawning areas, he said. The boats are equipped with high-speed pumps and the river is navigable for some distance.

The expedition should get under way today, he said after talking with leaders at Kenai.

Canada to Allow 5,000 Immigrants From Among Displaced Europeans

OTTAWA, July 11 (CP)—The Government has taken steps to admit to Canada an additional 5,000 displaced persons, bringing to 10,000 the number now being allowed into the Dominion, Reconstruction Minister Howe disclosed today as the Commons debated immigration policy.

[illegible] migration program Mr. Howe emphasized that these immigrants would be in addition to those admitted as relatives of Canadians and said they would enter Canada "as large groups coming to industrial and other employment."

Mr. Howe, speaking as acting minister in charge of immigration, briefly outlined steps taken by the Government to facilitate immigration as opposition members urged that the Government broaden its policy and appoint a separate deputy minister for immigration in the Mines and Resources Department.

He also criticized Premier Drew's plan to fly immigrants from the United Kingdom to Ontario, and said this seemed to be "a perfect [illegible] machinery that he did not understand and getting his fingers burned."

Before taking up mines and resources estimates, the Chamber cleared away a number of other pieces of legislation in its drive for an early prorogation, now scheduled for early next week.

It gave third and final reading to bills implementing Federal taxation agreements with seven of the provinces, implementing agreements reached with the four western provinces for refunding and adjustment of indebtedness incurred during the depression years, raising the sessional indemnities of Senate leaders and changing the King's title as it applies to India.

In the immigration debate Mr. Howe said Government policy may be described as follows:

1. There is practically free entry for all citizens of the United Kingdom, Australia, New Zealand, South Africa and Ireland.

2. There is free entry for all citizens of the United States.

3. Citizens of non-enemy European countries may enter Canada if destined to relatives here who are in a position to assist them to get started, or if they are coming to work in agriculture, mining, lumbering or other basic industries.

4. Other persons from such countries who have adequate means also are admitted freely.

5. Individuals in the displaced persons' camps are admitted to Canada when applied for by relatives in this country. This is outside the special quota of 10,000 which was authorized as to 5,000 on June 6, 1947, and as to a further 5,000 on July 9 last.

6. Persons applying for admission to Canada for the purpose of marrying a legal resident of this country are admitted if the prospective husband is in a position to maintain his intended wife.

"MIDDLE OF EARTH"

The Mediterranean Sea was so called by the early Latins because they believed it to be "the middle of the earth."

Giant Cyclotron Smashes Atom For First Time by Machine

PALO ALTO, Calif., July 11 (AP)—Two top researchers on the atom bomb said today for the first time an atom has been extensively smashed by a man-made machine.

Dr. Glenn T. Seaborg and Dr. Isadore Perlman reported an entirely new layout of strange new transmuted elements as the first formal achievement of the multi-million volt cyclotron in papers presented before the American Physical Society meeting here.

Hitherto broken down, chipped off, fused and exploded, the atom has been subjected to a devastating smashup in mankind's newest machine for atom experimentation, the giant postwar cyclotron at the University of California.

The results were achieved by hurling 200,000,000-volt bullets at atoms of arsenic in the 4,000-ton concrete-caged monster.

Arsenic nuclei were shattered into at least 22 pieces. At least 10 pieces were themselves elements of regular matter.

At one stroke, one relatively heavy element had been turned into many different lighter elements with spare bits left over.

This initial finding opened the way for the production of 100 new radioactive elements for scientific research. There are now about 450 radioactive and 275 stable forms of the conventional elements.

Atomic medicine will benefit directly from the awesome achievements of the cyclotron, which is capable of hurling atomic particles with energies up to 400,000,000 electron-volts.

U.S. Is Facing Less Meat

WASHINGTON, July 11 (AP)—The United States is facing the prospect of possibly 10 per cent less meat by early 1948.

Such a reduction would be accompanied by higher prices if consumer demand continues strong.

These possibilities are based on an Agriculture Department crop report yesterday forecasting a sharp drop in the corn crop as a result of one of the worst planting seasons on record.

The corn crop, which is the basic raw material for meat, dairy and poultry products, was forecast at 2,612,809,000 bushels. This compares with last year's record of 3,287,927,000, the Government's goal of 3,000,000,000 bushels and a ten-year average of 2,639,927,000.

Chinese Troops Suffer Setback

NANKING, July 11 (AP)—Chinese Government troops suffered new setbacks in Shantung province today while the National Defence Minister blamed the United States for the Communists' strength and the Foreign Office directed a second protest to Moscow over the month-old Sinkiang incident.

The official Chinese Central News Agency said the Government garrison of Taian, 33 miles south of Tsinan, Shantung provincial capital, had "moved to new positions in the face of Red attacks." This is a usual Chinese way of acknowledging a loss.

(The Communist radio broadcast without qualification that its forces had captured Taian and also Feihsien, 75 miles farther southeast.)

Taian, a strategic station on the Tientsin-Pukow railway, has changed hands three times since the first of the year.

It's a boy!

During those hours of childbirth and in the days that follow, doctors and nurses are never off guard against the risks of septic infection. To-day, in Canada's leading maternity hospitals, the doctors and the nurses have chosen a new weapon to protect their patients and themselves from the risks of septic infection. They use 'Dettol', the modern antiseptic.

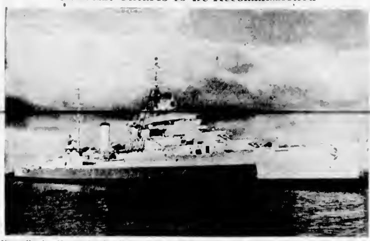

At no time are the qualities of an antiseptic — its dependability and safety — more searchingly tested than in the conduct of labour. 'Dettol' has won the trust and confidence of doctors and nurses because it combines in a remarkable degree the properties of high germicidal strength and gentleness on sensitive tissue. In your own home 'Dettol' is the safe way to safety from infection.

DETTOL
THE MODERN ANTISEPTIC

THE REASONS why 'Dettol' is now being used in more and more of the leading hospitals in Canada.

1 'Dettol' antiseptic is a ruthless killer of the germs that cause so many septic infections.
2 'Dettol' is non-toxic — non-poisonous. (Important in homes where there are young children).
3 'Dettol' is effective in the presence of blood and pus.
4 'Dettol' is gentle and kind to human tissues.
5 'Dettol' is safe: so safe that it could, in emergency, be used even in the dark.
6 'Dettol' does not stain either linen or the skin.
7 'Dettol' is deodorant, pleasant, agreeable, and admirably suited for use in feminine hygiene.
Do as the hospitals do, keep 'Dettol' handy and use it promptly whenever infection threatens.

H.M.C.S. Ontario to Be Recommissioned

Navy officials said yesterday that the recommissioning of the cruiser H.M.C.S. Ontario will be held Tuesday. Capt. J. C. Hibbard, D.S.C. and Bar, R.C.N., commanding officer of the ship, is expected to make a detailed announcement soon regarding the future activities of his vessel. Many of the complement of about 600 officers and men have been selected, with a large number from Victoria and other Island cities.

Sourdoughs Will Relive Fabulous Days of Yukon

Old-time Alaskans and Yukoners will converge on Seattle July 24-27 to celebrate the 50th anniversary of the landing of the Ss. Portland with the "ton of gold," which started the Klondike gold rush of '98.

Many of the fabulous men of those days are expected to attend, including Robert W. Service, M. A. "Mike" Mahoney, Henry Willett, S. S. "Skiff" Mitchell, H. A. "Ray" Stewart and Fred P. Kendall. Toastmaster of the "no host" luncheon will be international president, A. J. Goddard, who piloted the first boat down the Yukon River to Dawson.

The story of the gold rush has been told hundreds of times, and "Dan McGrew" and "The Lady Known as Lou" have been immortalized by Service. Tales of bravery and hardship and good times undoubtedly will be retold at Seattle as the friends gather again. It was in 1896 that rich gravel was discovered on Bonanza Creek and a wild rush to this almost inaccessible region followed. A population of 20,000 came in within the next three or four years with a rapidly increasing output of gold, reaching in 1900 the climax of $22,000,000.

The richest gravels were worked out before 1910 and most of the population then left the Klondike for Alaska and other regions; so that Dawson, which for a time was a bustling city of more than 10,000 dwindled to about 2,000 inhabitants.

Mining was a difficult business in those far-off days. As the ground was almost all frozen, the mines were worked by a thawing process, first by setting fires, afterwards by using steam, new methods being introduced to meet the unusual conditions. Later dredges and hydraulic mining were resorted to with success.

Canadians have always played a prominent part in these reunions. In 1929 the organization met in Vancouver. One of the most picturesque conventions held was in 1932 when the Calgary sourdoughs were hosts. The convention in 1937 was in Toronto and more than 100 old-timers from the Pacific Coast went East for it. Again in 1936 Vancouver entertained the groups from Los Angeles north.

Mrs. M. Crabtree Dies in Hospital

Mrs. Mary Kathleen Crabtree, 339 Ker Avenue, died in St. Joseph's Hospital yesterday. She was 62 years old.

Born in County Monaghan, Ireland, Mrs. Crabtree had been a resident of Victoria for 33 years. She was a member of Britannia Lodge, L.O.B.A., Princess Patricia Lodge, Daughters of St. George, and Ladies' Auxiliary of Britannia Branch, Canadian Legion.

Survivors include her widower, Harry, and one daughter, Mrs. N. M. Hansen, of Quesnel, B.C.

Funeral services will be held on Wednesday, July 16, at 2 p.m. from McCall Bros.' Floral Funeral Chapel. Rev. T. H. McAllister will officiate. Burial will be in Colwood Burial Park.

Unseeing Eyes Often Cause Of Accidents

Police Chief J. A. McLellan warned motorists yesterday that temporary absent-mindedness is responsible for many traffic accidents.

"One of the most frequent excuses in dangerous driving cases is: 'I didn't see him.' Why didn't he see him? The street was clear, it was daylight, there was no obstruction to his sight: the fact that there was a collision proved that he was there. The failure to see him must have been because the eyes, although wide open, were unseeing," said the chief.

"In the ordinary pursuits of life, it is a man's sight that most frequently stands between him and danger, but having sound eyes doesn't necessarily imply that they are being used to observe. Sight and mind must synchronize before there is intelligent vision. When the mind is absent, the eyes can be focussed directly upon an object and yet fail to see it. The defendant is honest when he pleads, 'I didn't see him.' What he does not realize is that he allowed his sight to become detached from his mind, so that for the time being he might just as well have been blind.

"When you are behind the wheel your mind must be on the job of driving. Day-dreams and troubles must wait until your car is in the garage."

Elena Lupescu's Condition Grave

RIO DE JANEIRO, July 11 (CP).—Elena Lupescu's condition was reported grave again today following a blood transfusion which was said to have caused a shock to her system.

A secretary to former King Carol of Romania said:

"Hopes of saving her life are considerably diminished."

Mme. Lupescu is suffering from an attack of anaemia.

Job Service May Check Flow to U.S.

Establishment of the McGill Placement Service and appointment of Colin M. McDougall, O.B.O., as director, has been announced by the McGill Placement Board.

Although designed specifically as an aid to McGill students and alumni, the new service is expected to serve a useful purpose in stemming the flow of Canadian-trained university graduates in the United States and to perform a definite service to industry generally.

The new bureau will maintain contact with employers and potential employers in all parts of Canada and rounding out the service will be a committee composed of members of the McGill faculty, which will develop plans for student vocational guidance and selection.

BAR WOMAN ANESTHETIST

AUCKLAND, N.Z. (CP).—Auckland Hospital Board declined to appoint a woman doctor as anesthetist on grounds that she would have to work on many operations with her husband, a member of the board's medical staff. A majority of the board held that it was undesirable for a husband and wife to work on the same operation.

Will Introduce Tax Reforms

OTTAWA, June 11 (CP).—Votes and proceedings of the Commons today carried notice of Finance Minister Abbott's bill that will make sweeping changes to the Income Tax Act.

Mr. Abbott announced in his budget speech April 29 that the bill would be introduced this session and given to members to study during the recess.

The act would aim at simplifying and clarifying the existing act which had been amended and changed so frequently since 1917 that it has become unwieldy.

It is understood the bill will be introduced in the Commons tomorrow, and will involve major changes in income tax regulations, including a reduction of discretionary powers of the minister concerning tax appeals.

Says C.C.F. to Back Workers To Fight Labor Code Sections

"The C.C.F. will fight shoulder to shoulder with workers, legally or illegally, to fight the iniquitous sections of the Industrial Conciliation and Arbitration Act," stated Harold Winch, leader of the Opposition, at a meeting held in support of the Nanaimo strikers in Woodsworth Hall last night.

Mr. Winch said "if the workers for the last 200 years had remained silent because it was illegal to do otherwise we would not be enjoying the much better conditions of the day."

Stating that the 37 striking laundry workers at Nanaimo represented an important principle, he said Ottawa and British Columbia were tying hand in hand to give private enterprise every right possible.

"Controls are being lifted so that owners of commodities can determine their own price and quality. Cost of living statistics have been set by price and not quality. What does not show in the price index is the poor quality of goods," he continued.

He said the "Coalition Government was doing its job ably and well, that of representing exploiting interests."

"We must fight not only against the iniquitous sections of the new act but also to oust the Coalition Government," he said.

Colin Cameron, president of the British Columbia Section of the C.C.F., urged members to fight the unfavorable sections in the act, which he said is designed to destroy the only real weapon the labor movement has—that of having the power to withdraw their labor.

"The new act is not a sudden brain-wave or spite action, but it is a cold-blooded step in the course of repression of workers taken to curb the organized labor movement," he said.

He said the Government will only take action against violators of the new act if it is liable to affect them "electorally."

He said the situation at Nanaimo at present is the outgrowth of years of apathy and star-gazing on the part of organized workers of the province. He maintained that the only alternative to fighting the new labor legislation was to replace the Government that enacted it.

Record of City Blood Donors Tops All Centres In Province

Victoria supplied more blood donors per capita than any other centre in the Province in the Red Cross blood donor service since its inception here last January, it was announced here yesterday.

Of 23 centres in British Columbia supplying blood, it was stated, 1,800 donors were listed in Victoria compared with 4,000 in Vancouver and smaller numbers in other B.C. communities.

Patients in B.C. hospitals have saved $100,000 by receiving 7,000 free blood transfusions through the volunteer service of the Red Cross.

Since the service was started, 9,803 bottles of blood have been collected from 10,000 donors in the province, which has been distributed to patients in all hospitals supplied by the Red Cross.

PREMIER ON HOLIDAY

Premier John Hart, with Mrs. Hart, left Victoria yesterday for two weeks' golf and fishing at Jasper.

RETURN STOWAWAYS

Three Jamaican stowaways, after three weeks' detention here after being taken off the British freighter Imperial Monarch at Nanaimo, have been sent to Port Alberni to board the same ship for deportation back to their homeland, it was reported yesterday by immigration officials. The British ship is being held responsible for the return of the trio to Jamaica, and is now loading lumber at the Up-Island port.

FEW DAIRY WORKERS

Shortage of skilled workers for dairy farms in the Victoria area "is as bad now as it was during the war," according to C. M. Smith, area supervisor for the Dominion-Provincial Farm Labor Service office in Victoria.

"What farmers want is men able to handle and operate milking machines," Mr. Smith explained.

On the other hand, he said, more berry pickers than ever before were available in the district, and the loganberry and raspberry crops were "well in hand." Haying is nearly completed and the office has had no difficulty in filling orders for workers in this regard, said Mr. Smith.

NEW POLICE JOB

During any day's work city police get some unusual requests, but this one really had them scratching their heads.

A woman phoned to say she had just finished a washing. She added she would be away from home most of the day and would the police please watch the line to see that none of it was stolen.

PHILATELIC SOCIETY

O. P. Bainbridge, retired stamp dealer from Vancouver, addressed members of the Vancouver Island Philatelic Society at the Empress Hotel on "Fakes and Forgeries," which he illustrated with examples from his reference collection.

He said that the most dangerous fakes are those in which a false overprint or cancellation is applied to a genuine stamp. Expert repairing of rare old stamps was also shown by the speaker.

HONOR CITY AIRMEN

Two Victoria airmen who were killed during the Battle of Britain while serving with the Royal Air Force were among those posthumously honored by the King at a special memorial service in Westminster Abbey this week.

They were Pilot Officer George H. Corbett, a fighter pilot who was shot down while helping to intercept an enemy squadron, and Flying Officer W. C. (Bill) Espley.

Pilot Officer Corbett was the son of Mr. and Mrs. H. C. Corbett, 2661 Estevan Avenue, and Flying Officer Espley was the son of the late Dr. Charles Espley and Mrs. Espley, 1266 Pandora Avenue.

COMING TO CANADA

OTTAWA, July 11 (CP).—Sir Alwyn Crow, head of the technical service of the British supply liaison mission in Washington, and Lt.-Gen. Sir W. O. Morgan, chief of the British army staff there, will visit Canada late this month, defence headquarters announced today.

Representation By Woman Is Innovation

The Dominion Astrophysical Observatory, Saanich, has been represented at a scientific meeting by a woman scientist for the first time, Dr. J. A. Pearce, director, said last night.

Miss Jean McDonald, astrophysicist at the observatory, recently attended the meeting of the American Association for the Advancement of Science at San Diego, California, where she presented five research papers.

Miss McDonald presented a paper of her own on physical characteristics of the Wolf-Rayet binary system which she recently investigated and presented technical papers by Dr. Andrew McKellar, Dr. K. O. Wright and Dr. R. M. Petrie as well.

She also visited the observatory at Palomar, the Mount Wilson Observatory at Pasadena, the Lick Observatory, Mount Hamilton and the observatory of the University of California at Berkley, where she conferred with California astronomers.

MORE JOBS AVAILABLE

A total of 547 jobs were available in the Victoria area this week compared to 706 on the same date last month, the National Employment Service Office reported yesterday.

Skilled construction workers continued to lead the demand for male workers with 72 openings; unskilled construction, 28; professional, 1; clerical, 11; sales, 16; service, 40; agriculture, 4; seamen, 7; logging, 14; unskilled labor, 70 and other skilled labor 16.

Public service workers offered the largest demand for women workers with 72 openings; clerical, 22; sales, 52; domestic service, 64; laundry, 10; skilled occupations 11, and unskilled 28.

Picnic, Dance Mark Glorious Twelfth

The unfurling of orange bunting, with lilting airs of fife and drum bands in long parades will mark the traditional celebration of the "Glorious Twelfth" today in most sections of Canada.

All provinces except Quebec will see the colorful parades, and in Victoria the day will be celebrated by a basket picnic at the Dominion Experimental Farm, Saanichton, [illegible] Orange lodges and True Blue lodges in the Greater Victoria district.

Buses will leave the Orange Hall at 2 p.m. and a dance will be held in the hall tonight, at which everyone is welcome.

At Vancouver, an Orange lodge stronghold, parades and the laying of a wreath at the Cenotaph will mark the celebration. Neighboring New Westminster will have its own parade and the weatherman has promised cool weather with the possibility of scattered showers.

Edmontonians plan a monster picnic with no parade and most Saskatchewan cities will conform to the Edmonton pattern. Moose Jaw Loyal True Blue members will have a parade followed by a picnic and in Brandon a large contingent of celebrants will converge on the prairie city to participate in sports, a parade and dance. The Winnipeg contingent will parade to the station before entraining for the gathering at Brandon.

Ontario, often dubbed Orange Ontario, [illegible] marchers in four main celebrations. At Toronto 12,000 will parade to the Canadian National Exhibition grounds for speeches.

CHINESE TO VOTE

NANKING, July 11 (AP).—China's voters will cast ballots October 21 through October 23 for members of the National Assembly, which will inaugurate constitutional government [illegible] office announced today.

"We Happy Few"

It was a unique and fitting tribute that was paid this week to the immortal memory of the gallant flying defenders of freedom in the Battle of Britain. Westminster Abbey, the fount of English history, has seen no more solemn or inspiring occasion than when the King unveiled a magnificent stained glass window and an honor roll containing the names of the men who died in that great combat. It was an Empire tribute. There were names of airmen who came from Canada and other British nations of the globe, as well as of European pilots who had joined with their ally at a crisis in history.

Mr. Churchill has already recorded contemporary estimate of the valor of "The Few" whom he eulogized as having done so much. Posterity will in all probability assess the Battle of Britain as the first of the several climacterics that assailed the Allies in the long struggle against the Axis powers. In one sense it was the most important, because all subsequent events hinged on the outcome. Had the Empire pilots not defeated the Luftwaffe decisively in the face of odds that at times seemed overwhelming the story of the war might well have had a different end for humanity more sombre ending. When the Germans failed to destroy the Royal Air Force in the Summer of 1940 they lost the war.

These thoughts would be present among the distinguished audience that watched His Majesty honor the heroes of the Battle of Britain and heard him say that "this chapel be set apart for all time as a memorial" in their name. The crests of the 63 squadrons which fought so proudly would recall the spirit of the men who died, and of their comrades who survived. They would see in the quotation from Shakespeare which is etched on the memorial, a symbol of the unity that made victory possible: "We few, we happy few, we band of brothers."

Harbor Votes

Supplementary estimates placed before the House of Commons, Ottawa, for "public buildings and wharves" contain slight reference to British Columbia as a whole. On Vancouver Island it is proposed to spend—or to cover expenditures made already—some $350,000, out of a total supplementary list for these purposes of $8,191,992. Victoria Harbor, for instance, comes in for $105,000 in dredging. There will be a little harbor work at Nanaimo, scattered wharves and fittings at Hornby Island, Chemainus and one or two other points, and some minor attention to small public buildings elsewhere.

There is not much evidence of a harbor program in that. Welcome as some attention to Island and Gulf Island wharves will be, this is only a drop in a bucket. Vancouver received some express attention this year, and that was justified. Few other places in British Columbia, however, have been remembered. Certainly, the $350,000 supplementary vote for Vancouver Island is small recognition of the work that remains to be done. Apart from a little inner basin dredging, it ignores Victoria completely.

One wonders, sometimes, if the Department of Commerce at Ottawa, with its year-long campaign in the interest of exports, is ever listened to by the Administration on harbor matters? The Pacific is re-opening to trade now. The opportunities for Canada in that field are great. Without developed ports, however, there will be little trade. Deepsea ships cannot dock at a Gulf Islands jetty, nor will they be influenced by a minimum amount of dredging in Victoria's inner harbor.

Two Europes

It was probably a foregone conclusion that the countries within the orbit of Russian control would refuse to attend the European economic conference. When invitations were sent to them by Great Britain and France the rejections were to be expected, but they were extended in good faith, the defection of the Soviet Union from the Marshall proposal notwithstanding. Even a second attempt to enlist Russia in the common effort to restore Europe was made, so anxious were the Western powers that no door should be closed to any who might care to enter.

Obviously under Russian pressure, Czechoslovakia has reversed its initial intention of taking part. Finland has also refused, after a tentative approach towards co-operation. Together with these two, Poland, Hungary, the Baltic States, Romania, Yugoslavia, Bulgaria and Albania will follow the Russian course by staying outside of the economic measures through which it was hoped Europe may be set on the path of rehabilitation. The Russian attitude, and those of satellites, is a vast disappointment to all individuals who see in the stricken millions of Europe a much more urgent need than the priority of ideologies or political aims.

The division of Europe thus created is therefore as emphatic as though in reality an iron curtain had been dropped to split the continent in two. On the free side of the curtain, however, at least sixteen nations will sit together in friendly fashion to see how they can work out plans to better their affairs and take advantage of the United States offer of aid in restoring the ravages of war. Without Russian participation the task will be much more difficult than it need have been. A great deal can be done, nevertheless, by nations which are inspired by the common aims of humanity, and a sincere desire to promote the only kind of unity that can lead to lasting peace and prosperity.

Indian Affairs

Not all parliamentary committees waste their time in eulogies of the sitting Administration. A report by a House of Commons Committee on Indian Affairs, now presented, contains much for thoughtful study. It calls for revision of the control and administration of Indian matters in Canada, Indian participation in that administration, steps to broaden the life and the opportunities of the tribesmen, and a good deal closer attention to health and nursing services. All this appears to be sound.

It has been a constant source of concern in the last few decades in Canada that the Indians from whom this country was originally acquired were not advancing in their civil opportunities. Tribesmen often spent their lives on the reservations. A scattered fund of uncommon work was found for them at odd seasons of the year. Trapping, fishing and berry-picking gave them a hazardous living, never far above sheer subsistence levels. Pulmonary and other diseases continued at an unwontedly high rate on the reserves. Education and hospitalization continued to lag in an age when great attention was paid elsewhere to both.

Not all of the allegations hurled at the Indian offices were always justified. The Dominion did set up a policy and tried to adhere to it. That policy, however, seems to have been without sufficient vision, sufficient funds and sufficient initiative. Its results today are to be found across Canada from coast to coast. They are not such of which Canada may yet be proud.

The report of the parliamentary committee on this subject should be welcomed, and its recommendations should be given a fair and even-handed trial. Canada can do better than it has done in this matter in the past.

Going?

Entomologists say that the common housefly is tending to disappear, along with the horse, in those countries which have turned almost exclusively to motor traction. The housefly, like its farm cousin the horsefly, bred prolifically at horse stables. As the stables grew fewer, the fly population was reduced. Today in some parts of the world there is a notable difference. An older generation will remember the Summer-long battle with houseflies, with rolls of sticky yellow paper, with saucers of fly-poison, with window screens and the common "swatter."

The housefly usually won. Though millions of flies died, enough remained to make life often miserable. There was always one chink in the window or door screens, and through it some fly would find its way. With Machiavellian cunning, it would hide during the day and emerge with lamplight to plague the household. It would wipe its feet—and it had six of them—on the nearest bald head. It would careen around the top of milk jug or sugar bowl. It would resist annihilation with a tenacity worthy of much higher deeds. It would follow into the bedchamber, and what one lone fly could do there was beyond belief.

While the disappearance of the horse would be a genuine loss to mankind, the housefly will never be missed. It has had its urban day, and what a day that was!

Seen in Passing

As a general thing urban dwellers are over-fed, under-exercised and deprived of their natural share of sunlight and fresh air. Most human ills that fill the hospitals have their roots, in one way or another, in this primary neglect of what the human body was designed for. Late in life the city dweller retires to the country and begins to cast off the years. His city friends meet him and remark that he is ten years younger in appearance, and it is probably true. In the cities, however, the same mad rush over nothing continues as the way of life.

This is a teasing world. Perhaps one in ten individuals count the change they are given when making a purchase. On most occasions they would find it right, and that, perhaps, is the factor which leads to the habit of taking it for granted. On the other hand, it is just this habit which paves the way for the persistent short-changer, and there are some in every community.

The Hills

Out of the complicated house come I
To walk beneath the sky
Here mud and stones and turf, here everything
Is mutely comforting.
Now hung upon the twigs and thorns appear
A host of lovely raindrops cold and clear,
And on the bank
Or deep in brambly hedges dank
The small birds nip about and say
"Brothers, the Spring is not so far away"
The hills like mother-giantesses old
Lie in the cold,
And with a complete patience, let
The cows come cropping on their bosoms wet,
And even tolerate that such as I
Should wander by
With paltry leathern heel which cannot harm
Their bodies calm;
And, with a heart they cannot know, to bless
The enormous power of their peacefulness.

THE POOR BAGPIPER!

(The Gazette, Montreal)

It is just like the C.B.C. to overlook the eminently distinctive talents and claims of the bagpiper. His pipe ought not to be neglected, even if it is not a pipe of peace.

The loneliness of the man with the pipes is enough to touch the heart. But ignored by the unions, and overlooked even by the C.B.C., he may yet find a consolation such as belongs to few men in his situation. For he carries his revenge under his arm.

LOGICAL ARGUMENT

(Windsor Daily Star)

Certainly we should not fail to note weaknesses in our way of life, but we should not lose sight for a moment of the fact that this is the best country in which to live. If we keep preaching that true doctrine, we can do much to convince others. People are not going to fall victims to propaganda that offers them something worse than they already have. It is as simple and logical as that. Show Canadians that there is nothing better than our present way of life, and we shall have little cause to worry about the Reds.

BARE OF DEFENCE

(Halifax Chronicle)

The Canadian east coast is as bare of defence as a billiard ball. Forts which bear honorable names are falling into ruin. No one appears to care for them even as interesting historic sites commemorating a remarkable period of Canadian development.

Admittedly, it would cost large sums of money to defend the Canadian east coast as it should be defended, and Canadians of the interior, who cannot be expected, perhaps, to appreciate the situation, may not care to find such sums . . . Yet we should like to feel that the Minister of National Defence knows the situation here accurately and fully, and that he feels sympathetic to the natural and proper aspirations of all true Haligonians.

HE HAS A LITTLE LIST!

(Toronto Telegram)

For the information of shopkeepers, merchants, restaurateurs and tradespeople in general, and with no one particular in mind we give voice to the rumor that during the past long, lean years there were people who kept a little list and that they intend to refer to this list as increasing sources of supply allow them more freedom of choice when buying. They are the people who, rightly or wrongly, believe they have been bullied, snubbed, mocked, taunted and humiliated, and who have gone their brooding, embittered ways jabbering about worms that turn and muttering in their more lucid moments that: "There will come a day."

SECRET SESSION

(Toronto Globe and Mail)

Since we have gone through the motions of a secret session—since the Government has brought Parliament up to date on its views of these unmentionable episodes and situations, the least the public can expect is an official pronouncement on foreign policy. And, unless the public is to conclude that the secret session also cloaked the Government's explanation of why it has not a policy, members of Parliament who do not wish to appear as "conspirators in silence" will insist that such a statement be made before Parliament rises.

GOLD MEDAL STEAK

(Edmonton Journal)

Alberta now has a "national dish." No it is not grilled prairie chicken or buffalo stew, either of which would have lent itself to seductive advertising in the States and in the other provinces of Canada. Our "national dish" is officially labelled "Grilled Alberta Gold Medal Ranch Steak."

The steak was selected in a recipe contest sponsored by the provincial government. Judges decided that beef is Alberta's typical and favorite dish. Just why steak should be a typical Alberta food is not explained. It is just as much a "national dish" in Texas, or any other ranching country.

DO YOU REMEMBER?

(Elmira, Ont. Signet)

Do you remember when there were no heaters in cars? When there were no automatic windshield wipers? When there were no spare tires? When there was no glass in a car except the windshield? When everyone in the front seat got out to have gasoline put in the tank under the seat? When magnetos, instead of generators, provided the spark for the spark plugs? When every car carried a hand pump for the pumping of tires? When lights on cars depended on how fast the motor was running? When the motor was stopped there was no horn and no lights? When its tires were 2½ by 30? When cranks accounted for more broken arms than there were starters? If you do, you knew more about a car than you do now.

New Rules of Warfare Present Problem

By PERTINAX
North American Newspaper Alliance

NEW YORK, July 11.—Diplomats and students of international law are shortly to be faced with a new and potentially crucial problem:

Are the rules which go under the name of principles of Nuernberg—that is the rules specially drafted to try the Nazi war criminals—to be codified, co-ordinated and become the subject of an international convention which would make them valid in the event of a future war. Or would the more cautious approach be to agree between the nations that every future international crime should be judged on the merits and demerits of the specific case—holding that nations have not yet entered that era when universal and permanent international penal laws can be enforced?

Favoring codification of the Nuernberg principles is Mr. Donnedieu De Vabres, eminent professor of criminal law who was chosen by the French Government to sit on the Nuernberg court. He has a considerable following in this view. American, Russian and British lawyers support the opposite view.

The division of opinion can be explained simply. French, Dutch and other jurists belong to what may be called the school of statutory law, individuals who adhere to the letter of the law. English-speaking jurists, on the other hand, are trained in common law, which involves judgments in the spirit of the law, gathering its effect from judgment on previous similar cases, from legal opinions rendered and from changing customs and popular ideas.

This difference of attitude was basic throughout the debates of the commission on the progressive development of international law and its codification during its meetings at Lake Success in May and June. The commission was restricted by the General Assembly to procedural questions. Nevertheless the more fundamental problem showed through constantly.

The controversy is sure to blast completely into the open when the new committee of experts—offspring of the above commission—convenes, probably in a few months. When they meet, these experts will have to determine what use is to be made of the Nuernberg rules, that is of the "Charter" signed in London, August 8, 1945, by the victorious powers and of the implicit rules derived from its application by the Nuernberg court.

There is good reason to believe that the whole problem was discussed privately by Justice Robert Jackson, who acted as public prosecutor at Nuernberg and Prof. De Vabres, who played an important part in the commission on the progressive development of international law and its codification a month ago. They are understood to have disagreed.

The decision has far-reaching importance and will certainly not be taken lightly. The following is an instance of what may be at stake.

Under the Nuernberg rules no individual who, as a public servant, had anything to do with starting a war of aggression can plead in justification that he merely carried out orders from his superiors in government. But would the United States Government today condone disobedience by the American high command on the grounds that the generals and admirals must think of their eventual responsibility before some future international court and must therefore, at a critical moment, use their own discretion? This is, of course, unthinkable.

Doubtless American generals and admirals would be the last in the world to be impressed by such international enactments. But the subject cannot be treated lightly, however ludicrous it may sound. We have lived to see the day when breaching military discipline was the only way to behave with honor and patriotism. Of course this could hardly be the case except in such unusual circumstances as were created by the monstrous regime of Hitler. And no generalization need be made in such cases.

The main problem now before the United Nations is to define a war of aggression without declaring equally unlawful such measures as may be taken to ward off attack. It would be better to drop the matter entirely before any legal provisions are made which might prevent peaceful nations from protecting themselves. But then the nations which drew up the Nuernberg rules will be open to the charge that they are not ready to accept as applying to themselves those regulations which they applied to the enemy.

The answer, of course, is that no less rigorous sentences could have been handed out at Nuernberg even if the war criminals had been on trial only for infringing the laws of war. But for all that, a more cautious attitude in 1945 would have been to avoid any effort to legislate on aggressive war since, in the words of Justice Jackson in his July 4 speech at Chatauqua, any definition which comes to mind is at best a double-edged sword.

Pioneers who dwelt here in 1898 have vivid recollections of the many vessels in service between Victoria and Alaska during the hectic days of the Klondike gold rush. F. G. Davidge & Co., Ltd., Board of Trade Building, handled the British steamship Manauense, which called at St. Michaels. George L. Courtney, Fort and Government Streets, was agent for the Canadian Pacific Railway vessels Tartar and Athenian, which connected at Wrangell with other company steamers. Bennett Lake & Klondike Navigation Company operated the Ora, Nora and Flora. R. P. Rithet & Company, 61 Wharf Street, represented the Pacific Coast Steamship Company's Queen City, Cottage and Alki. G. A. Strickland handled business for Ss. Amur. The Canadian Pacific Navigation Company, managed by Capt. John Irving, operated the Danube and Vukoner. Passage aboard the City of Seattle, Pakshan and Garonne could be booked at the office of Dodwell, Carlill & Company, 64 Government Street. The Canadian Development Co., Ltd., 22 Fort Street, booked passengers and freight for Ss. Tordenskjold. E. E. Blackwood was agent for the Alaska Pacific Express Company, which carried gold dust, food and merchandise between Victoria and Dyea, Juneau, Sitka, Skagway and Wrangell. The Pacific Coast Steamship Company also owned the City of Puebla, Walla Walla and Umatilla, in service between Victoria and San Francisco. Canadian Pacific Navigation Co. Ltd., ships called at Victoria, Vancouver, Ladner, Lulu Island, New Westminster, Plumper Pass, Alberni, Pender and Moresby Islands and Skidegate. In addition to serving Nanaimo, Wellington and way points by rail, the Esquimalt & Nanaimo Railway owned Ss. City of Nanaimo, Capt. W. D. Owen, which docked at Nanaimo and Comox. The Puget Sound & British Columbia Steamship Company connected Victoria, Port Townsend and Seattle with Ss. North Pacific.

ISLAND ROADS

Sir,—In this morning's Colonist, there is a very interesting article on roads and I have read every word of this several times, for, I am one of those "American visitors" referred to, almost an "Old Timer," for I have been coming to Victoria since 1932 when I had to come from as far as Honolulu.

Personally, I believe that your correspondent is exactly right, and, seldom have I seen this "road" matter dealt with, on paper, in better form.

While nothing, nor even worse road conditions than at present, or, than what I have encountered in years past, since I first came to Victoria, in 1932, could ever keep me from returning, each year, if possible, to this lovely country, yet, I do believe a good many American automobilists will be more or less influenced by reports that are sure to go back from disappointed visitors. That does not include me. I am never disappointed, here.

I always have my car with me, have driven nearly every road on this Island, I believe. My car is a 1942 model on its third trip to Victoria, is one of the "low slung" type, has "hit bottom a few times" and, it would be really comforting, shall we say, if the "powers that be" could use a little better judgment in "timing," and, come to a slightly better realization of the value of the "goodwill" of the American visitors.

You have had my "goodwill" for many years, and, it shall always be so.

It takes me ten days to drive the 1,892 miles from my home, in Tucson, Arizona, to the Empress Hotel, via Mt. Vernon, Anacortes and Sidney, but, even if I should find fresh tar on the East Saanich Road, as I drive off the Vashon at Sidney, well it wouldn't faze me, no, I'm coming anyhow.

APPLES FOR BRITAIN

Sir,—It will, indeed, be a calamity if the apple-growers of British Columbia are not able to sell this year's crop.

I wonder is this plan would help in the disposal of it.

A very large number of residents in British Columbia are in the habit of sending parcels to friends in Britain, and this is especially the case at Christmas. A number of stores undertake the sending of these parcels, and if orders for boxes of apples could be placed with these stores now even though the actual shipment will not take place for several months, the apple-growers will be assured of a further market. I believe that the number of boxes which would be ordered would be very large, once the public had realized that both the British Columbia growers and the people of Britain would benefit thereby.

I cannot think of a more welcome gift than a box of British Columbia apples of a good keeping variety at Christmas time.

(Mrs.) K. B. SCHILLING.

West found it difficult to choose between a club and a diamond on his opening lead, but finally decided to lay down the club ace. After seeing the dummy, it became highly desirable to put East in for a heart return—obviously West could not afford to lead from the queen—and West therefore shifted to the diamond six.

Naturally, however, it was South who won this trick, and now everything hinged on the spade situation. Declarer could, of course, ruff a club in dummy, but this would do him little good inasmuch as he would still lose another club trick, one diamond, and probably the heart queen. After much agonizing, South led his singleton spade and put in dummy's queen. It was a fatal manoeuvre. East won and shifted to hearts, and South ended up by going down two tricks.

It was, of course, an even money proposition as to the location of the spade king, but declarer had made a very bad decision in using his singleton as he did. The correct play was to lead to dummy's ace, then to push the spade queen through East. If this lost to West, at least it would probably cost the defenders a trick to return a trump, and if they did not make that return, declarer could ruff a club in dummy and discard a loser on the spade ace. In short, the possible loss from cashing the spade ace and leading the queen through East was substantially less than the possible loss of finessing to the queen, and it was on that basis alone that the decision should have been made. As the cards actually lay, of course, the ace-play and the lead of the spade queen through East would have produced the contract.

Mayors Ask Larger Pensions, Elect Officers as Parley Ends

WINNIPEG, July 11 (CP). — The Canadian Federation of Mayors and Municipalities concluded its tenth annual conference today, after devoting most of the discussions during the three-day meeting to two topics—housing and the plight of municipalities faced by shrinking sources of revenue and increased demands for services, and electing officers for 1948.

Concern over dwindling revenues with which to meet financial burdens imposed upon municipalities by direct or indirect enactments of senior Governments found expression in the report of the federation's municipal finance committee, which recommended the prompt enunciation of a policy of Federal-municipal aid.

The mayors informed the Dominion Government that Federally-enacted social welfare measures housing and unemployment relief were essentially a national financial responsibility as well as a legislative one, and requested an early conference on housing with Prime Minister Mackenzie King and the Cabinet.

The federation passed resolutions urging that Federal and Provincial Governments pay municipal taxes on local improvement or betterment charges on all Crown lands within municipal corporations, and that the $30 a month currently paid old age pensioners be increased to $50, with their allowance redesignated as "retirement pensions." The delegates also urged the abolition of all means tests.

Mayor Ray Forbes, of Fredericton, today was elected president for 1948 of the Federation of Mayors and Municipalities. Mr. Forbes, who is indisposed, was elected in absentia.

Other officers elected were: Honorary president, Mayor Garnet Coulter, Winnipeg; first vice-president, Mayor Lucien Borne, Quebec City, second vice-president, Mayor Sam Lawrence, Hamilton, third vice-president, Mayor George MacLean, St. Boniface, Man., fourth vice-president, Mayor A. J. Mason, Springhill, N.B.; fifth vice-president, Mayor G. G. McGeer, Vancouver, honorary secretary, Mayor A. W. Macpherson, Saskatoon; honorary treasurer, Mayor Harry Ainlay, Edmonton.

London Times Pooh-Pooh's Flying Discs

LONDON, July 11 (Reuters). — "Flying saucers," which have been puzzling citizens of 41 states and of Canada since last month, now have made a complete tour of the world, according to messages received here.

These mysterious flying discs were reported today from Japan and yesterday from Chile, Holland, Britain and Northern Ireland.

The stately Times today pooh-poohed the notion that "flying saucers" were new and attributed the first discovery to the Mad Hatter in Lewis Carroll's "Alice in Wonderland." The newspaper's usually flippant fourth editorial quoted as evidence:

"Twinkle, twinkle, little bat!
How I wonder what you're at—
Up above the world so high,
Like a tea tray in the sky."

Admitting "there is indeed much difference between a tea tray and a saucer in the pantry," The Times declared, "the difference is not so obvious when whichever it is is traveling through the night sky at several hundred miles an hour, aglow with an eerie refulgence."

Reported as looking like "saucers," "washtubs," "victrola records," "thick discs with port holes and plexiglass domes," "trailing a half-dozen smaller ones behind," the "things" seem to have established universal agreement only on their airborn quality. Estimated altitudes have ranged from 600 to 12,000 feet while speeds have hit 600 to 1,200 miles an hour.

Culture Is Lacking in Canada, Authors' Association Is Told

VANCOUVER, July 11 (CP). — Canadian authors, seeking success for their works, should stay on the "back porch" and away from the big cities was the advice given members of the Canadian Authors' Association in annual convention here.

The five-day meeting closed tonight with Dr. John Murray Gibbon of Montreal, founder of the association, presenting the Governor-General's awards for achievement in the varied field of writing.

William O. Mitchell of High River, Alta., a former prairie school teacher and now the author of a best seller "Who Has Seen the Wind," advised his colleagues that they should be "idealists."

The back porch is the best place to write a book, he said. Keep away from Toronto, Montreal and New York.

"Don't confuse art with propaganda," he told the 150 authors. "The drawback with modern fiction is the lack of compassion for the human creatures of the earth."

Government support for the arts came into the discussions during round-table sessions.

"The basic problem in Canada is one of cultural malnutrition," said Herman Voaden of Ottawa, president of the Canadian Arts Council. "Millions of Canadians have never seen a good original work of art, nor attended a symphony nor a professionally produced play."

He said the Federal Government had failed to set up any organization to implement the resolutions adopted by the United Nations Educational and Scientific Organisation.

"There is Government support for the arts, but it needs to be drawn together."

Award winners include Miss Winifred Bambrick, winner of the fiction award for her novel "Continental Revue". Major Symons, winner of the Stephen Leacock Medal for humor for "Ojibway Melodies." Prof. A. M. Lower, author of "Colony to Nation," a history. Frederick Philip Grove, who gained his award for his autobiography "In Search of Myself," and Robert Finch, author of "Poems."

Ambulance Can't Pass Red Light

TORONTO, July 11 (CP).—An ambulance has not the right to pass through a red traffic light, even if on an emergency call and sounding its siren. This was the finding of Mr. Justice F. E. F. Smily today in reversing the decision of a London, Ont., court, which had dismissed a dangerous driving charge against an ambulance operator whose vehicle crashed a bus at an intersection.

Bill Cancels Relief Debts

OTTAWA, July 11 (CP).—The Commons today gave final reading to a bill providing for the cancellation of $55,416,164 of the relief debts built up by the Western Provinces during the depression and for the grounding of some $60,223,379 borrowed from the Dominion during the same period.

The bill, which now goes to the Senate, was based on agreements reached with British Columbia, Alberta, Saskatchewan and Manitoba during the negotiation of new taxation pacts.

Finance Minister Abbott said a total of $165,000,000 was involved. Loans to the four provinces for capital and ordinary governmental purposes totalled some $60,223,379, while loans for direct and agricultural relief amount to $99,379,960.

Half of the relief debt—$55,416,164—was to be cancelled and the remainder was to be repayable without interest during the next 30 years.

The cancelled debt would be divided as follows:

Manitoba, $5,420,675; Saskatchewan, $36,336,797; Alberta, $5,297,500, and British Columbia, $8,342,190.

The amount of relief indebtedness which will be refunded by a new issue of treasury bills but without interest will aggregate $49,689,960. It will be divided as follows.

Manitoba, $5,439,675; Saskatchewan, $30,610,612; Alberta, $5,297,500, and British Columbia, $8,342,190.

LONDON (CP).—Family pooling of rationed food in Britain is based on the theory of "women and children last," an editorial in the British Medical Journal said.

"Duster" Hits In Northwest

The worst "duster" in a dozen years in Northwestern Oregon and Eastern Washington left a mantle of dust over Spokane today, shattered hundreds of acres of ripened wheat with an estimated half-million-dollar loss, leveled trees and utility poles and unroofed numerous buildings.

Lightning storms over the Blue Mountains started a dozen or more small spot fires, which were quickly controlled. Six blazed up in the Pomeroy district of Washington and four in the Walla Walla district.

The wind reached 65 miles an hour at certain spots. Brief but overwhelming in its intensity, the storm lists yesterday afternoon extended from Pendleton, Ore., to Spokane and west over Central Washington. Far to the north, at Calgary, Alta., heavy rain and gale winds toppled trees, disrupted communications lines and ripped booths apart during a stampede at the fair grounds.

Portland Weather Bureau said the storm was caused by "extreme turbulence" associated with widespread thunderstorms. Northwestern Oregon points called it the worst "duster" in ten years.

Whistling through Calgary at a velocity as high as 90 miles an hour, the supper-time gale threw the busy stampede grounds into confusion yesterday, toppled trees in all parts of the city, disrupted electric light services at numerous points, and resulted in injuries to at least one person. Heavy rain accompanied the wind.

... Oddities ...

NEW YORK, July 11 (CP)—The Australian News and Information Bureau here is the authority for today's animal story:

Mrs. Joyce Edwards of Chatwoods, N.S.W., Australia, has an 18-year-old horse which, the A.N.I.B. says she says, likes hot dogs and hamburgers and finishes a meal with fruit, vegetables and milk. Its favorite drink is a hot cup of tea with two lumps of sugar.

OTTAWA, July 11 (CP).—Take it from Senator John T. Haig, Progressive Conservative leader in the Senate, as a certainty: There will be a Dominion general election in the Fall of 1948. And, as a prelude, the next session of Parliament "will be a humdinger."

He made these statements before the Senate today and was promptly asked by Senator James Murdock (L.—Ontario): "Is that a threat, or a promise?"

"It's a prophecy," said Senator Haig. "After years in this business you learn to know these things."

LOS ANGELES, July 11 (CP).—Rel Brown really likes strawberries—to the tune of $95.

He couldn't remember whether his diet allowed him to eat the berries. Since the copy of his diet was in London, he made a trans-Atlantic call to his wife, who told him he could have them.

The cost of his scrumptious breakfast: $1.29 for the strawberries, $94 for the phone call.

FIFTY INJURED

BUDAPEST, July 11 (AP). — Approximately 50 persons were injured, some severely, in a street fight that followed Communist efforts to break up a Budapest meeting of the Hungarian Freedom Party today. Police halted the fighting and arrested about 100 persons.

NO NATIVE CATTLE

There were no cattle in North America until they were imported by settlers.

Al Capp Sues His Syndicate

NEW YORK, July 11 (AP).—Alfred G. Caplin, known professionally as Al Capp, creator of the comic strip character "Li'l Abner," filed suit in federal court yesterday for $14,000,000 damages from United Feature Syndicate, Inc., distributor of the strip, and the syndicate's parent, United Press Associations. Caplin's complaint contains six causes of action involving alleged breaches of contract and other acts, and seeks adjudication by the court granting him an accounting, terminating his agreement with United Features Syndicate, and directing the syndicate to reconvey to him its copyright registration of "Li'l Abner."

The complaint alleges, among other things, that the syndicate failed to promote the comic strip to the proper extent and also failed to use its best efforts to obtain prices "consonant with its popularity and commercial value."

Store Includes Egg Facilities

Carrying a complete line of merchandise for dairymen, poultrymen and gardeners, Buckerfield's Ltd., is opening a new store at 2100 Douglas Street.

Hunter B. Vogel, former manager of the company's store at Duncan, will be in charge.

One of the features of the new store is the installation of an ultra-modern egg plant, complete with cold storage and grading facilities. Referring to this installation, E. E. Buckerfield, managing director, said: "It is our expectation that egg-handling facilities will ensure retention of the Victoria metropolitan market for Victoria and Island eggs. It is also our hope that egg production will increase so that this area will ship more eggs to the British market where they are badly needed."

Mr. and Mrs. F. E. Costello Are Pictured With Their Attendants, Mr. Bernard Costello, Best Man, and Miss Dorothy Griffin, Bridesmaid, Following the Wedding

Eileen Griffin Weds F. E. Costello.

At a pretty wedding solemnized at St. Andrew's Cathedral on Thursday morning June 26 Eileen Mary Griffin, daughter of Mr and Mrs. M Griffin, 122 Howe Street, exchanged nuptial vows with Frank Edmund Costello, son of Mr. and Mrs A Costello, 155 Croft Street. Rev Father J. L Blanchfield conducted the nuptial mass.

Given in marriage by her father, the bride was charming in a white sheer gown with an embroidered net veil held by a halo headdress. She carried an arm bouquet of red roses and gardenias showered with forget-me-nots.

Miss Dorothy Griffin was her sister's attendant and wore a blue taffeta gown with a chapel veil of blue net and carried an arm bouquet of mixed carnations

Mr Bernard Costello was best man for his brother

Following the ceremony a wedding breakfast was held at the home of the bride's parents, followed by a reception during the evening

For a honeymoon in Vancouver, the bride traveled in a peach gabardine suit with white top coat, brown accessories and corsage of red roses and gardenias Mr and Mrs Costello will reside at 1131 Woodstock Avenue.

Pretty Wedding At St. Alban's

At a double-ring ceremony performed on Friday evening at St. Alban's Church by Rev. F. E. M. Tomalin, Jacqueline Ivy, only daughter of Mrs. L. McDavitt, 1176 Yates Street, and the late Harold Andrews, became the bride of C.P.O. John C. Waldron, R.C.N., youngest son of Mrs. B Waldron, 3690 Carey Road, and the late Mr W. Waldron.

Tall baskets of pink and white gladioli, with carnations decorating the high altar, formed the setting for the service. While the register was being signed, Miss Grace Adams sang "O Perfect Love."

The bride, given in marriage by her brother, was lovely in white satin, styled with high neck open over the shoulders, lily-point sleeves, full skirt with peplum at the waist sweeping into a long train. Her filmy veil was held under a coronet of gardenias and cascaded to the train A double strand of pearls with matching earrings, the groom's gift, and a bouquet of pink roses and gardenias tied with gold and white streamers, complemented her ensemble.

Miss Irene Gettel, maid of honor, gowned in pale pink eyelet embroidery, and Miss Isobel Hickman, cousin of the bride, wearing pale blue taffeta, were the attendants. Both wore wreaths of pink carnations with mitts to match their dresses and carried bouquets of mauve and pink sweet peas and carnations.

The groom had his cousin, P.O. George F Buckingham, as his best man C.P.O. William Mundie ushered

At the reception held at the North Ward Hall, Kings Road, Mrs. McDavitt and Mrs Waldron assisted the young couple in receiving the guests. A pink and white motif was used for the bride's table which was centred with a three-tiered cake flanked by tall lighted tapers

Mr. H Allen gave the toast and Mr M. W. Waldron, brother of the groom, acted as master of ceremonies.

Leaving for the Mainland for a honeymoon at Alta Lake, the bride wore a grey and white check suit with white open-crowned sailor hat, blue shortee coat, gray accessories and gardenias en corsage. They will make their home in Victoria.

Trip to Edmonton Follows Wedding

At the Metropolitan United Church on Saturday evening, Marion, daughter of Mr. and Mrs. George D. Peterson, Edmonton, exchanged marriage vows with Mr. J. T B (Ben) Hall, of 949 Collinson Street, son of the late Mr. and Mrs. David Hall. Dr. A E. Whitehouse officiated

A smart flowered French hat matched the bride's afternoon frock of delph blue crepe, with which she wore long white gloves and a corsage of rosebuds. In attendance as matron of honor was Mrs. Claude Potlinger, niece of the groom, attired in a silver blue gown with matching hat and corsage of roses.

Mr Leslie Williams was best man

Hydrangeas and snapdragons banked the fireplace at the home of the groom's sister, Mrs. R. Bramley, 2297 Brighton Avenue, where the reception was held. Lighted pink candles and diminutive bouquets of rosebuds on pink satin placed on the table which was covered with a lace cloth, made a pretty setting for the three-tiered wedding cake. Mr. R Bramley proposed the toast to the bride.

For a honeymoon trip to Edmonton, the bride donned a black gabardine suit with matching top coat, black straw hat trimmed with blue, and black accessories Mr. and Mrs. Hall will reside in Victoria

STOCKHOLM (CP) Plans for Swedish defence in peacetime will increase the navy's combat ships to 124 instead of 115. The building program calls only for lighter craft.

The bride, who entered the church on the arm of her brother, Mr Harold Bradford, wore a floor-length gown of heavy white satin [illegible] bodice and lily-point sleeves Her veil was held by a wreath of gardenias and she carried a bouquet of deep red roses and maidenhair fern Her only ornament was a string of pearls, the gift of the groom.

Mrs A Bergen of New Westminster sister of the bride, was matron of honor, wearing a gown of lime green sheer and carrying a bouquet of deep pink carnations. The bridesmaids were Miss Sheila Rees of Vancouver, wearing a gown of pink taffeta with a doublet net skirt, and Miss June Bradford, wearing a gown of blue green nylon brocaded with white daisies. Both bridesmaids carried rosettes of pink gladioli

Mr Raymond Bradford brother of the bride, was best man, while Mr Robert Nelson of Enderby and Mr Gaven Patterson of Summerland ushered

A reception was held in the parish hall for more than 75 guests

For a honeymoon to the United States the bride traveled in a pearl grey gabardine suit with fuchsia accessories and a corsage of carnations. Mr and Mrs. Ryman will make their home on the Dominion Experimental Station in Summerland, where the groom is employed

The bride is a recent graduate of the Royal Jubilee Hospital

Autumn British Styles Have Larger and Rounder Crowns

By DENISE DALTROFF
Canadian Press Staff Writer

LONDON, July 11 (CP) - From a display of Autumn models by the Associated Millinery Designers it was evident that both off-the-face and sideways movement of hats are well established with designers and buyers, for these styles dominate another season's crop of models.

More thought appears to have been given to comfort, for the [illegible] and rounder than they have been and fit snugly to the head

Quills, ostrich and coq feathers and plumes are by far the most popular trimmings for the Autumn although sequin mesh and tassel fringes were used on cocktail and theatre hats.

Colors played a large part in these models and there was a predominant trend toward contrasting color for the brim, or as a lining for the front of a large brim. Chartreuse yellow and nut brown, light and olive green, fuchsia and navy blue royal purple and cyclamen, claret and pale peach, oyster and red, black-and-red and black-and-white were some of the color combinations

One smart black hat had a large east-to-west brim lined with white on the inside and large seagull feathers trimmed the top of the [illegible]

Designers looked far afield for inspiration for their models Variations of the Napoleonic tricorne were frequently used One was made in marigold felt with black plumes falling over the front point, and the crown had three tucks in the back

Caballero and toreador styles also proved themselves adaptable for feminine wear The latter was in ruby red felt with a black fringe cascading down over each of the side pieces. The brim of a large halo hat was cut in the shape of a clover leaf

"Inflated" berets were other popular designs and many of these were modelled with the east-to-west movement, and some straight-brimmed hats were slightly rolled in front

For teen-agers a large cartwheel hat was shown with tucked ribbon on the inside of the brim framing the face A square-shaped halo was another design for teen-agers

Miss Kay Knapp, whose marriage takes place shortly, was given by [illegible]

A miscellaneous shower honoring [illegible] Street, on Wednesday evening The bride-elect was presented with a corsage upon arrival and the gifts were concealed in a basket decorated in pink and white The guests were Mrs J Dunnett, Mrs L Keating Mrs K. Danes and Misses Helen Knapp, Marie Haw, Ann Lucky, Lolly Wood and C Knapp

Members of Salvation Army Principals of Wedding Here

Amid a floral setting in the temporary Salvation Army Citadel, the marriage of Songster Muriel Grace McInnes, daughter of Major and Mrs. Allan McInnes, of New Westminster, and Bandsman Robert R Wilson, son of Mr and Mrs. G. Wilson Sr, of this city, was performed by the bride's father

The bridal party, dressed in the traditional Salvation Army uniform, entered the Citadel to the strains of the Wedding March played by the Citadel Band, of which the groom is a member. The bride was accompanied by Color-Sergeant P. Robertson and carried a bouquet of red roses and white carnations to complete her costume She was preceded by Songster-Leader Evelyn Hammond of the West Side Corps as bridesmaid, who had a bouquet of yellow, red and blue flowers in Colonial style to complement her uniform.

Bandsman George Wilson supported his brother Ushers were Mr Gerald McInnes, brother of the bride, and Bandsman Bruce Robertson.

During the signing of the register the Citadel Songster Brigade favored the guests with the selection, "Thou Wilt Keep Him in Perfect Peace"

At the reception, the bridal couple stood beneath a floral arch to receive their guests and were assisted by Mrs. A. McInnes and Mrs Wilson Sr. The three-tiered cake surrounded by tulle, stood on a special table The master of ceremonies was Young People's Sgt -Maj. Bert Nelson.

For a honeymoon trip to Vancouver, the bride chose a fuchsia-colored suit and hat, with sky blue topcoat, white accessories and a gardenia corsage

On their return Mr and Mrs Wilson will reside at 3060 Harriet Road

TRY THIS DRESSING WITH Salmon Salad

SAYS MRS. NELL HILL, TRURO, N.S.

A good salad dressing makes the salad and pure mustard "makes" the dressing. Here is a recipe that your family will enjoy day after day. As Mrs. Hill says, it goes particularly well with Salmon Salad.

MRS. HILL'S SALAD DRESSING

1 tbsp. flour / 2 eggs beaten
½ cup sugar / 1 tbsp. butter
1 tsp. dry mustard / ½ cup cold water
1 tsp. salt / ½ cup vinegar
dash of cayenne

Combine the dry ingredients and beat in the eggs. Add the butter, water and vinegar and cook in a double boiler, stirring constantly until thickened.

Amy Bailey Weds William MacKay

Summer flowers in pastel shades decorated St. Andrew's Presbyterian Church on Friday evening for the marriage of Amy Bailey, elder daughter of Mrs. H R Braden, 600 Linden Avenue, and the late Mr. M V Heath, to William R. MacKay, second son of Mr N A. MacKay, Cobble Hill, and the late Mrs MacKay

The pretty bride, given away by her stepfather, was attired in white jersey silk with floral design fashioned with pleated skirt, surplice bodice and short sleeves. Flowers similar in color to those in her dress covered the crown of her small white straw hat. She wore white mitts and carried a bouquet of pink carnations and mauve sweet peas Her only ornament was a jeweled pendant belonging to her grandmother

Mrs Peggy Dobbie, gowned in pale pink chiffon styled with full skirt puff sleeves and round neck, was her sister's only attendant. A bandeau of orchid flowers in her hair, matching mitts and a bouquet of gladioli and sweet peas in the same shade completed her costume

The best man was the groom's brother, Mr Alexander MacKay Ushers were Mr. John Oliver and Mr. George Hutchison.

The reception was held at the Y W C A, where Mrs. Braden and Mrs. George Wilmshurt, sister of the groom, welcomed the guests with the bridal couple The three-tiered cake was cut by the bride and groom Mr. T. Stonehewer proposed the toast.

For a honeymoon Up-Island, the bride wore a beige gabardine suit with Chile-green hat, brown accessories and a corsage of Sweetheart roses and violas. Mr. and Mrs. MacKay will make their home at View Royal.

For Brides-Elect

Mrs R. Clarke and Mrs D Charlton were co-hostesses at a miscellaneous shower on Thursday evening at the home of the former on Forbes Street, in honor of Miss Rita Clarkson, a July bride-elect. The many gifts were concealed in a miniature covered wagon. The bride-elect received a corsage of white carnations and white sweet peas and her mother, Mrs. Mary Clarkson, received a corsage of pink carnations, which were presented by Master Brian Charlton The guests were Mrs. W Cave, Mrs. F Amos, Mrs. C. Clarke Sr., Mrs F Purcell, Mrs. E Jones, Mrs B Spence, Mrs D. Charlton, Mrs R A. Clarke, Mrs Helene Catt, Mrs C Stephenson, Mrs F Clarkson, Mrs. M Snelling, Mrs. M Tanner, Mrs. F Allen, Mrs C. MacDonald, Mrs. J.-J. Clarke, Miss Betty Bertram, Miss Doris Wakeham, Miss Phyllis Monaghan, Miss Ruth Collyer and Miss Ida Stanco

LADYSMITH FETE

The annual garden party of Sharon Chapter, No 4, O.E.S, Ladysmith, was held at the home of Mrs. W Gordon, Victoria Crescent, on Thursday afternoon. The affair was officially opened by Mrs. Ellen Brown of Nanaimo, Associate Grand Conductress, who welcomed the guests

The many attractive stalls were convened by Mrs. Ruby Hunter and Mrs. Florence Strang, sewing, Mrs Janet Beattie and Mrs. Jane Steele home cooking Mrs. Eleanor Gisborne and Miss Dorothy Haworth, novelties. Miss Grace Kerr and Mrs. Lillian Liptak, drawings Tea was convened by Mrs Margaret Wood, assisted by Mrs Mirian Miner, Mrs Alice Mitchell, Mrs Jessie Patton, Mrs Audrey Smith, Mrs. Lilian Nash, Mrs Annie Reid, Mrs Betty Corfield, Mrs Bernice Baker, Mrs Talmi Hindmarch and Mrs Josephine Beaton.

Little Gladys and Leni Hindmarch, dressed in colorful paper costumes, carried umbrellas bedecked with fancy handkerchiefs and sachet bags which they sold to the guests.

Proceeds of the affair amounted to $230

Liquor Pooling For Clubs Ends in B.C.

Licensed clubs in British Columbia will no longer be required to operate the ticket-book system for sales of drinks, as a result of new regulations under the Government Liquor Act gazetted yesterday.

Sections of the regulations have [illegible] line with amendments to the act passed by the last session of the Legislature.

Chief of these changes, as affecting clubs, does away with the old pooling system, which required that liquor for club use should be purchased only on the individual permits of members. With junking of the permit system generally, the club pool plan automatically went by the board, and clubs may now purchase their supplies directly from liquor vendors.

Prohibition of the serving or consuming of liquor over club bars remains in the new regulations. Clubs must provide proper rooms for members' refreshment, and bars may be operated only as service bars.

Hours of service, formerly 10 a.m. to 1 a.m. on weekdays, are cut short by 30 minutes, the regulations requiring service to be discontinued at 12.30 a.m., and at midnight Saturdays, since sales of liquor are not permitted on Sundays.

Two-Way Sets May Be Used

Patrol cars of the British Columbia Police may soon be using two-way radios for crime detection, Attorney-General Wismer said yesterday.

Mr Wismer added, however, that bulk of the cost must be borne by the municipalities. Estimated cost of equipping each car is approximately $1,000.

Lack of adequate radio facilities was cited as a factor in the getaway of the bandits in the recent North Vancouver bank robbery.

Police officials in Vancouver are hoping that an integrated radio system will link North and West Vancouver, Chilliwack, and similar Lower Mainland points with metropolitan Vancouver.

Courtenay Rotary Leader Installed

COURTENAY, July 11. — Harry Godley, Courtenay furniture merchant, was formally installed as head of the Rotary Club here at a luncheon meeting. Past President William Booth, who installed the new president, said the selection of Mr. Godley was a popular one, and pointed to his record of service and enthusiasm for club activities during the two years he has resided here.

Mr Godley thanked members for their confidence in him and asked for their support and co-operation during the year ahead.

Other officers installed were R. Williams, sergeant-at-arms; T. Corfield, treasurer; Lester Dobell, G. H. Kirk, Clifford Laver, Donald MacLean, Ralph MacKenzie, Harold Woodland and P. L. Anderton, executive members.

Mr Anderton was presented with a past-president's pin by Dr T. A. Briggs.

Port Alberni Man Drops From Sight

PORT ALBERNI, July 11.—S. N. Williams, 72, salesman for the Publishers Guild of Canada, Ltd., 318 Bower Building, Vancouver, has been missing here since July 1.

He had a room at a local residence. The head office recently received letters stating he intended to disappear, according to police reports.

He was first thought to have gone down the Alberni Canal on business, but police now believe he may be suffering from amnesia.

Three Charges Laid Against Local Doctor

Three charges of supplying narcotics were laid against Dr James P. Vye by officers of the Royal Canadian Mounted Police in city police court yesterday morning.

Bail was set at $5,000 on the first charge and $1,000 on each of the two other charges, when Dr. Vye was remanded until July 16, without plea.

The first charge stated that Dr Vye, being a physician, did unlawfully supply Joseph George Downey with morphine sulphate on June 16 contrary to the Narcotic Drug Act, the said drug not being required for medicinal purposes. The other two charges alleged that the doctor supplied the same man with drugs on June 18 and July 10.

Claude L. Harrison, city prosecutor, said he would not be handling the case for the Crown and had been requested by the R.C.M.P. officers to advise the court they would proceed by indictment.

The remains of all the Polish kings from Wladyslaw Latketek, who died in 1333, to August II, who died in 1733, lie in the crypt below the Polish cathedral in Wawel.

Post-Mortems Ordered In Two Deaths

A post-mortem was ordered yesterday by Coroner Dr. E. C. Hart, following the death Thursday night of Harry Marr, elderly occupant of a waterfront shack off Harbour Road near the Johnson Street Bridge.

[illegible] pital on the night of July 5, following a report to police by David Hunter, occupant of a nearby house boat, that Marr was lying "very sick" in his shack. He had been missed by his companions for a couple of days.

Police found the door bolted from the inside and, after breaking in, saw Marr lying unconscious.

At the hospital he never recovered consciousness sufficiently to permit interrogators to learn the cause of his injury.

Police do not believe the man met with foul play, however. They state it is more probable he fell and struck his head on one of several metal objects found in the shack.

Dr Hart also ordered a post-mortem yesterday on the body of Ruth Karin Olsen, aged about 45, who was found dead at 11:05 a.m. yesterday in a downtown hotel.

Police reports said the coroner was called in because of the unusual position in which the body was found.

Dr Hart said he would make no decision about inquest into either death until he has had an opportunity to study the post-mortem reports.

Reports on Polio All at Vancouver

So far, Vancouver is the only area of the province in which poliomyelitis has made its appearance this Summer, according to latest reports received by the Department of Health here, Dr. G. F. Amyot, deputy minister, said yesterday.

He added that cases in Vancouver were reported to be unusually mild.

Dr J. L. Murray Anderson, health officer, said yesterday there was no need in Victoria for any special precautions, but he advised parents not to take children on any unnecessary trips to the Mainland.

Net Surplus $644,328

OTTAWA, July 11 (CP).—Eldorado Mining & Refining Co., Ltd., showed a net surplus of $644,328 for the 15-month period ended March 31, according to the company's financial statement tabled in the Commons today by Reconstruction Minister Howe.

The surplus compared with a deficit of $206,357 at December 31, 1945. The company, expropriated by the Government during the war, had a net profit for the period of $952,571, compared with a net loss of $335,964 for the 12-month period ended December 31, 1945.

Foreign Exchange

NEW YORK, July 11 (CP). — The Canadian dollar was up 1-8 at a discount of 8 3-16 per cent in terms of United States funds in closing foreign exchange dealings today. The pound sterling was unchanged at $4.02 3-4.

Police Search For Fisherman

PORT ALBERNI, July 11.—Henry Bill, 32, a Sechart Indian last seen on his 28-foot troller, is missing from Ucluelet, Provincial Police report.

He left Ucluelet on July 3 to fish off the Big Banks, 20 miles due south of the village, and has not been heard of since.

The troller has a black hull with white trim and an unpainted pilot house, and bears no name.

MONTREAL, July 11 (CP).—Trading was exceptionally light, and little or no changes were observed on the bond market here today. Dominions, provincials, municipals and the corporate groups were featureless.

The chimera fish is the only vertebrate to retain traces of a third pair of legs.

John Hart Trophy Won by Hepburn

Winner Cards 52-Hole Total of 240 to Top Evans—Dr. Livesey Wins W. J. Wilson Trophy

The John Hart Trophy for the lowest gross score over three days' play was won by H. F Hepburn, of Victoria, as the annual V.I. Senior Golfers' Association championship tourney concluded with a final round at the Oak Bay links of Victoria Golf Club yesterday.

Hepburn shot an 81 yesterday, which, with his 79 and 80 scored at Colwood and Uplands courses, respectively, gave him a total of 240, six strokes better than S. Evans who had 80-79-87 for 246. It marked the second time Hepburn has won the title. First triumph was in 1944.

Dr. H. H. Livesey nosed out Evans, yesterday's leader, to win the W. J. Wilson Trophy for the low net honors.

The George Straith Trophy for the inter-club team match was won by the Uplands Golf Club squad.

The 46 contestants held a dinner and general meeting following the tourney. N. E. Suddaby presided.

Other prizes presented at the meeting were:

AA Class, Dr. W. G. Wilson; A Class, Rev. P. Comley; B Class, N E. Suddaby, R H Lyon; C Class, S. C Trerise, F Thomas; D Class, S. J. Evans, Dr. P. E Margeson.

Par Competition, Fred Smith.

Putting: First day, Dr P E Margeson, W H McMillan; second day, C. A Thompson, C. L. McLaughlin; third day, P. P. Ellis, E W Mackenzie-Grieve.

Oldest member playing in tournament, C A Thompson.

With him are his threesome partners, W. B. Powel, of Duncan, on the left, and Frank Thomas, of Victoria. At the par three eighth hole yesterday, all three members shot birdie two's.

Steve Belloise Stops Abrams

NEW YORK, July 11 (AP).—Steve Belloise of the Bronx tonight stopped Georgie Abrams in five rounds of a scheduled ten-heat boxing match at Madison Square Garden.

Belloise's victory wiped out a decision Abrams, a clever boxer, scored over him last year. Belloise, a rugged slugger with little boxing skill, weighed 159¾ and Abrams 161.

In a bout marked entirely by clouting and confusion, Abrams was floored once again in the first and second rounds, and was dropped again in the fifth before Referee Johnny Burns stepped in and halted the proceedings just as the bell sounded ending the round.

At one point in the second, both fighters were on the floor together for four seconds. Later, to the same heat, when Burns stepped between them, Belloise got the idea the fight had ended and Burns had to tell him to go to work again.

Verley Wins At Portland

PORTLAND, Ore., July 11 (AP). —Doug Bajus, University of British Columbia star, was ousted in the quarter-finals of the Pacific Northwest Golf Association tournament today, going down 6 and 5 to Ray Weston of Portland.

Weston meets Charles Gordon of Seattle tomorrow in the 36-hole final on the Alderwood Country Club course.

In women's play, Gracie de Moss, Cornwallis, Ore., will meet Babe Freese Bowman of Portland for the title.

In the sixth flight semi-finals of men's play, Gordon Verley, Victoria, defeated Bob Dwyer, Portland, 6 and 5. He will meet O. J. Miller, Portland, tomorrow.

In the eighth flight, E. Forst, Vancouver, B.C., downed Jarret Jones, Portland, 6 and 2. He will play Norman Anderson, Portland, tomorrow.

Minor Baseball

Victoria Bottle Exchange moved into a tie for first place in the midget section of the minor ball loop by edging Ace Woodworkers, 5-4, last night. Lorne Smith bested Moody in a pitching duel.

Fighting for third place behind Woodworkers and Eagles, Granskа beat Spencers, 6-1, as Lionel Smith hurled his second one-hit game in two nights. In winning both games, Smith raised his strikeout total by 23, whiffing 12 last night and 11 Thursday.

In a bantam section game, Quarter Cab defeated Peacey's Pirates, 27-14, with Catterall being credited with the pitching victory.

An important meeting of the Victoria Minor Baseball Association will be held at the Eagles Home, 761 View Street, tomorrow at 10 a.m. All managers, coaches and officials are requested to attend. The proposed "juvenile week" and play-off dates will be discussed. Those unable to attend are asked to contact the secretary.

Marbend Wins Calgary Stakes

CALGARY, July 11 (CP). — Marbend, owned by J. S. Thomson of Midnapore, Alta., won the $1,000 Calgary juvenile stakes, feature race of the Calgary Stampede meet at Victoria Park oval today, the sixth day of the seven-day meet.

Marbend closed with a lot of drive through the stretch to get by Shore Star, who set the pace for most of the five-furlong dash. The favored Sum Dock had to take up momentarily and was never in it.

Favorites ran first or second over the rest of the seven-race program which along with the stampede events in the infield attracted another great crowd.

Blue Stream won the first and Daisy Boy the second to return a daily double of $34.10. Grand Maison won the seventh with a length to spare over Bold Justice to return a $20.70 quinella.

Closest finish of the day came in the third heat when Kelly won by a neck over Flo Broom, who took the place by a nose over Lady Giovando, ridden by Jockey E. Roy. Roy was set down for five days by Presiding Steward George W Schilling for not giving racing room.

Five C's To Play Oak Bay Eleven

Five C's will attempt to extend their unbeaten streak in the Greater Victoria Cricket Association against the Oak Bay eleven on the latter's home grounds at Windsor Park in the feature match of three on today's program.

A recently bolstered University School Incogs squad will face Albions at Macdonald Park in what should be a keenly-contested match. The third match brings together Ex-R.A.F. and H.M.C.S. Naden at the Naden grounds.

All matches are set to commence at 6:30 p.m.

Edwards, Bennett Reach Semi-Finals in All Events

By VALERIE SCOTT

As rain threatened to take precedence over players on the Victoria Tennis Club courts yesterday afternoon, all matches were completed up to the semi-final rounds for city championship honors.

Commodore J. C. I. Edwards and Henry Bennett shared the distinction of reaching that spot in all three events.

Together they won their doubles match against the C.P.R. team of R. Mitchell and H. Sinclair. Mitchell and Sinclair led 4-2 in the first set, but the superior play of Edwards and Bennett came to light as they won the next four games to win the set at 6-4. The C.P.R. team fought all the way but failed to get more than three games in the second set.

Previously, Commodore Edwards had partnered his wife to win through two rounds of the mixed doubles matches. The first bout won against W. Brown-Cave and Mrs. Bennett at 6-1, 6-1, was just a warm-up for the second to which the Edwards' team needed only two sets to account for Carl Brand and Mrs. B. Robinson at 7-5, 6-1 after play was interrupted to install foot-fault judges.

The last vacant spot in the singles was filled by D. Williams, when he defeated Jim McArthur 8-6, 6-1. Williams again proved himself a good player but a slow starter. After trailing 4-6 in the first set, he won it 7-5 and easily took the second at 6-1. He has every capability of acquitting himself well against Carl Brand today, and their match should prove to be the highlight of the day's play.

It is unfortunate that owing to navy duties, Commodore Edwards will be unable to play his singles match today against Henry Bennett, thus giving the champion a walk-over to the final round.

Today's draw follows:

2 p.m.—Open: Williams vs Brand, Miss Unsworth vs. Mrs Edwards; Miss Bell vs Miss Peden.

2 p.m.—Flights: Parker vs. McCormick, Brown-Cave vs. Milledge.

3:30 p.m.—Open: Parker and Bishop vs Brand and McCallum; Mrs. Bennett and Mrs. Wilson vs Miss Bell and Miss Unsworth.

4:30 p.m.—Open: Mrs. Goodland and Bennett vs Mrs Birley and McCallum.

5 p.m.—Flight finals: Mrs Bennett vs Miss Gore-Langton; winner of Parker vs. McCormack to play winner of Brown-Cave vs. Milledge.

Loses Irish Open

PORTRUSH, Ireland, July 11 (Reuters).—Fred Daly, winner last week of the British open golf championship, was only able to tie for fourth place in his attempt to retain his Irish title, captured by Dublin professional Harry Bradshaw yesterday.

Yorkshire Ends Losing Streak

LONDON, July 11 (Reuters). — Yorkshire, last year's county cricket champions, today ended the run of four straight defeats which has dropped the team far down the list in the standings, but could obtain only a draw with Kent. Gloucestershire and Middlesex, not playing today, remained in a tie for first place.

Today's results:

Glamorgan vs Leicester—Match drawn. First innings: Leicester, 179; Glamorgan, 143. Second innings: Leicester, 133; Glamorgan 31 for 3.

Northamptonshire vs Essex — Match drawn. First innings: Northampton 301 for 8 declared; Essex 331. Second innings: Northampton, 182 for 8 declared; Essex 104 for 8.

Warwickshire vs Lancashire — Match drawn. First innings: Warwick, 307; Lancs 296. Second innings: Warwick 160 for 7.

Worcestershire vs Hampshire — Match drawn. First innings: Worcester 135; Hants 230. Second innings: Worcester 374 for 8 declared; Hants 80 for 4.

Yorkshire vs Kent — Match drawn. First innings: Yorks 79; Kent 244. Second innings: Yorks, 111 for 3.

Somerset vs Nottinghamshire — Match abandoned as a draw, no play today. First innings: Somerset, 171; Nottingham, 133. Second innings: Somerset, 148 for 8, declared.

Derbyshire vs Surrey—Match abandoned without a ball being bowled.

Races Tonight

ROY VINCENT

One of the local drivers who will compete at the weekly auto racing meet at Langford track this evening. Vincent will be seen at the wheel of Stewart Pringle's No 61 machine. American entries will include "Pike" Green, driving Chuck Rouse's No. 25 car; Don Olds, and Bill Parkin's No. 44 machine driven by Jack Spaulding of Vancouver. Two other American entries are expected. They will be Gene Fanning's No 6 car, driven by Lou McMurtry, and No 2 machine, owned and driven by Del Fanning.

Birdmen Trim Navy Nine 10-2

Breaking up a tight game by virtue of seven runs in the eighth inning, the league-leading Eagles triumphed over Navy 10-2, in last night's senior amateur baseball game at Macdonald Park.

Bob Brousseau, curve-balling left-hander, set the Tars down with three bingles and single runs in the first and fourth innings, neither of which were earned.

Navy started newcomer Dick Barwis, who went along well, giving up only two hits and two runs—both in the second—until taken out for a pinchhitter in the seventh. Barlow came in on the Navy mound and after giving up one run in the seventh was blasted for seven hits and a like number of runs in the next inning.

Eagles' third baseman, Malcolm, was leading sticker for the evening with three hits in five trips.

Brousseau struck out seven in earning his triumph. Barwis whiffed three but walked a total of nine batters.

Caps Pound Woop To Down A's 10-5

Erratic Southpaw Out in Third Frame Relief Ace Finally Quells Mainland Bats

Bill Woop, large, erratic southpaw who had given promise in his last two pitching jobs that he was ready to settle down, again ran foul of a bad inning last night at Athletic Park and failed to survive the third frame as Vancouver Capilanos went on to score a 10-5 triumph over Victoria Athletics. Close to 1,200 fans dared threatened dampness, which just held off long enough.

After blasting Woop off the mound and knocking Ray Fortier literally out of the game, the Caps pounced on Joe Blankenship for four runs, two of them unearned, in the fourth, before the sturdy relief specialist had time to settle down.

Blankenship went along in fine style from there but it was too late. The A's found Carl Gunnarson no puzzle, picking up 15 hits, including two home runs and a double, but were unable to bunch their blows, most of which came after two were out.

Bill White punched out a long home run — his 11th — in the first after Hooper had walked to give Victoria a 2-0 lead. Woop went along smoothly until two were out in the third. Two singles put runners on and, as usual, this seemed to bother the wronghander.

Two successive walks forced one run over and two well-tagged singles by Reese and Stumpf followed in rapid succession to score four more runs. When Tran singled, Ray Fortier was sent to the rescue. Gunnarson lined a hit which struck him on the pitching arm. Fortier managed to retire the runner, but was through for the night.

Jack Harshman's 25th home run and successive doubles by Jensen and Cavalli put the A's back within one run in the bottom of the third, but the Brennermen sealed it with their four-run outburst in the fourth, errors by Righetti and Harshman each allowing one counter.

Losers picked up seven hits to the last four innings, but only dented the platter once more, Righetti singling and counting on hits by Patterson and Hooper in the sixth.

Victoria winds up its short home stand today with two games against the same opposition, before leaving for Bremerton to meet the Bluejackets on Sunday in the first two games of a nine-game series.

Len Kasparovitch will oppose Bob Snyder in the sunlight fixture, while Jim Arnold will give his ailing arm another try in the nightcap. The slim righthander, who would be a big winner if he was right, reports the flipper in excellent condition. He will battle it out with Bob Hall, the Vancouver Adonis, who is also a pretty fair sort of a righthander.

INDIANS, SENATORS BOTH WIN GAMES

Both Spokane Indians and Salem Senators won their games last night as Victoria dropped to fourth place. The Bremerton-Tacoma clash was postponed because of wet grounds.

The Senators moved into third place by scoring an easy 10-5 victory over Yakima in the opener of a five-game series at Yakima. Salem put the game on ice in the first two innings when they scored two runs in the initial frame and then added four more in the following stanza on Mel Nunes' grand-slam home run.

Spokane pounded out five home runs in their 16-11 victory over Wenatchee Chiefs. Both Herb Gorman and George Schmees hit three-run homers for Indians, Gorman's coming in the second and Schmees' in the third. Finding the short fences at Wenatchee to their liking, both Schmees and Levi McCormack homered in the fifth and Jake Phillips added another in the sixth. Ted Greenhalgh hit both of Chiefs' four-baggers.

Yanks Lengthen Streak To Ten Straight Wins

By The Canadian Press

The New York Yankees stretched their winning streak to ten straight last night by knocking off St. Louis Browns, 2-1, and increased their lead over both Detroit and Boston to an even ten games in the American League pennant race.

Outhit six to three, the Yanks made economical use of the trio off Ellis Kinder and enabled Allie Reynolds to post his ninth win.

In the National League, Vic Lombardi worked his first complete game of the season for Brooklyn Dodgers as he turned in a four-hit 6-0 shutout victory over Chicago Cubs.

At New York, Ron Northey's pinch homer, following an earlier three-run blast by Catcher Del Rice, gave Ken Burkhart, St Louis' relief hurler, a 4-3 edge over the Giants in the first half of a twin bill.

The New Yorkers bounced back with a vengeance for a 17-5 romp in the second, called after eight innings because of darkness. Mel Ott's charges clubbed St. Louis pitching for 18 hits, including two homers each by Bill Rigney and Sid Gordon and one each by Clint Hartung and Willard Marshall.

Aided by six Boston errors, Ewell Blackwell gained his 15th win and his 13th in a row for Cincinnati Reds with a 10-5 triumph over the jittery Braves.

Big Money Winners Vie At Jamaica Track Today

NEW YORK, July 11 (AP).—Assault and Stymie bring their alternating act for racing's money-winning championship back to Jamaica tomorrow in the $50,000 Butler handicap, and if Assault can carry a loaded truck as easily as the last time they tangled, he'll probably win the title back—this time for keeps.

As a result of his string of six straight wins since last November—four of them over Stymie—they're piling a back-breaking 135 pounds on the clubfoot comet this time, compared to 126 for his one-time Texas playmate, against four others in this mile and three-sixteenths meander. No horse—not even the great Discovery, who toted 132—has ever won the Butler with that load.

Actually, this scramble is strictly a tune-up for next Saturday's $100,000 Empire City International Gold Cup at Belmont, since all five of the entries tomorrow are eligible for that fancy feature. This makes it the most expensive "tune-up" in history.

Stymie now heads the earnings parade with $595,510 and if either Assault or Stymie wins tomorrow's $36,700 it will put the winner over the $600,000 mark in earnings.

Vets in Deadlock for Second Place As Martin Hurls Fourth Win in Row

HOW THEY STAND

	W.	L.	Pct.
Esquimalt	14	6	.700
Brentwood	10	10	.500
Vets	9	9	.500
Douglas Tire	8	11	.410
Bluebirds	6	12	.333

Lloyd Jones' Army, Navy and Air Force Vets got the jump on Douglas Tire in the hectic fight for the third play-off spot in the senior "A" men's softball league by defeating the O'Connormen, 6-5, in a keenly contested game played before a good crowd at Central Park last night.

Cellarites not so long ago, Vets' win was their fourth straight and brought them into a tie for second place with Brentwood Aces. At the same time, they knocked the struts from under Tiremen's four-game winning streak. The Tiremen now have only four more games to play in the rapidly closing league schedule, and will have to fight hard to supplant either Aces or Vets by play-off time.

Although Vets have shown a lot of hustle and have been pounding the ball hard, biggest share of the credit for their recent successes must go to Norm Martin, who has pitched them to victory in each of the four games.

Martin was again effective last night as he scattered eight Tiremen blows. A wild first inning saw each team score three runs. Losers went one up in the second, but, led by Joe Travis with a home run and two singles, Vets scored two in the third, one in the fifth and two in the seventh, while Martin limited his opponents to one more run in their half of the seventh.

Vets knocked out 12 solid hits from the offerings of Joe Bryant and Ken Gunter, who relieved in the fourth. Both teams turned in practically errorless performances.

Winding up their schedule of league games, B.C. Forest Products scored an 8-4 triumph over R.C.N.A.D. to finish with a record of 16 wins and one loss on top of Division Two of the Senior "B" Men's League. Ascott pitched for the winners, who were credited with three home runs, two by Fairservice and one by Brown.

Naval Stores won by the same score over New Method to improve their chances for a play-off spot in Division One of the same league.

SOOKE WOMAN KILLS 13TH COUGAR

Mrs. Joan Yates, Becher Bay, widely known as "Queen of the Cougar Killers," is pictured above with the 13th cougar she recently killed. With Mrs. Yates is her faithful hound Bessie, which treed the animal within 200 yards after it was sighted close to Mrs. Yates' home. She also shot and killed one other large cougar on the same week-end. Both measured more than seven and one-half feet in length.

Dawn to Race In Big Contest

H. W. Miller's 42-foot power boat ... Yacht Club entry in the annual race of the International Power Boat Racing Association, to be held from Bremerton to Nanaimo on July 18 and 19, club officials said yesterday.

Almost 200 entries are anticipated from many Pacific Coast clubs. The 143-mile test calls for an all-night run.

The race will be restricted to power boats in which two-thirds of the structure is devoted to living accommodation. It will be an efficiency race, with a predicted log.

Each entrant will hand in a log to the judges before starting, in which must be estimated the time speed of the craft in each of six divisions of the course, along with the finishing time.

Following a ten-minute period of adjustment immediately after starting, no controls on the boat may be touched, and all timepieces must be left behind. In addition, aboard each vessel taking part will be an impartial observer acting for the judges who will ascertain that none of the race regulations are broken.

Points will be awarded on the estimates of the predicted log, with each error counting against the entry, to be totaled at the end of the race. Deadline for starters will be noon Friday, July 18, Pacific standard time, at Nanaimo.

Mr. Miller, who lives at 3265 Beach Drive, will be accompanied by his wife and two daughters, Irene and May, who will act as crew members during the race.

Canal Sharks Damage Nets Off Kildonan

PORT ALBERNI, July 11.—Basking sharks are making their appearance in numbers in the Alberni Canal around Kildonan. One fisherman suffered more than $100 damage to his nets and another had ... monsters.

In the first instance the fisherman got his shark and recovered 900 pounds of liver, which is used in the manufacture of oils. However, the price is reported to have dropped for the livers, and the return does not compensate fishermen fully. As much as 1,600 pounds of liver has been taken from some of the huge fish.

Royston Pioneers Plan Celebration

COURTENAY, July 11.—Fiftieth anniversary of their wedding will be marked by Mr. and Mrs. Matthew Piercy, pioneers of Comox district, at their Royston home next Tuesday.

Mr. Piercy, now 76, came here from Nova Scotia in 1877, while his bride, the former Elizabeth Comb, came to Union (now Cumberland) at the age of 16. She is now 68.

Rev. Alexander Tait performed the wedding ceremony at the Sandwick Manse on July 15, 1897. The groom was supported by Albert Walker, while the bridesmaid was Miss M. Burnett, who later became Mrs. Albert Walker. Mrs. Walker, whose husband died several years ago, has resided at Fanny Bay for 40 years.

Mr. and Mrs. Piercy have four sons, William and John, in the United States, Milton, at home, and Donald of Vancouver; three daughters, Mrs. S. Gough, Cumberland, and Mrs. H. Wain of Lester, Wash. There are also five grandchildren.

Daughters and sons of the pioneer couple have arrived in the district to take part in Tuesday's celebration.

Burglary Case Before Court

NANAIMO, July 11.—Early last Sunday morning two local stores, Harding & Quinn, jewelers, and Filmer's Book Store, Ltd., were robbed of approximately $5,000 worth of merchandise. Today in police court Mike Creansa, 23-year-old fisherman of Vancouver, was charged with having been a participant in the robbery. Bail was set at $5,000 and the case remanded for eight days.

Creansa was picked up by Vancouver police at the request of local officers, and brought back for trial here by Sergeant A. Pomeroy. It is understood a warrant has been issued for another man who allegedly took part in the burglaries.

Cedar Woman Passes

NANAIMO, July 11.—Mrs. Elizabeth York, 76, a resident of Cedar District for 34 years, died in Nanaimo Hospital today. She is survived by two brothers and two sisters. The funeral will be held Monday at 2:30 p.m. from the Westwood First Funeral Home.

Damage Lines At Glen Lake

As a result of vandalism in the Glen Lake area, which has resulted in the breaking of several insulators on distribution lines, B.C. Electric Railway Co., Ltd., line department officials will be forced to cut off power on Sunday morning to effect repairs.

J. W. Casey, line superintendent, reported a large number of insulators had been broken in the Glen Lake district, apparently by youths using slingshots. "It is one of the most difficult types of vandalism we have to contend with because it means that service to large areas must be disrupted to make repairs," he said yesterday.

The service will be cut off between 8 and 6.15 a.m. Sunday morning in the Sooke and East Sooke areas, Mr. Casey said.

Last Rites Today

NANAIMO, July 11.—Funeral services for the late Mrs. Marion McLeod Porter, 76, who died at her home in Chemainus on Wednesday evening, will be held Saturday at 2 p.m. from the Anglican Church at Chemainus. Mrs. Porter was born in Scotland, and had resided at Chemainus for the past 62 years. She is survived by two sons and seven daughters.

PORT ALBERNI, July 11.—John Segoff of Alberni was sentenced to serve one month in Oakalla when convicted on a charge of supplying liquor to Indians.

Buried at Ladysmith

LADYSMITH, July 11.—Funeral services for the late Joseph Wilson, 59, who passed away suddenly at his home at Ladysmith on Saturday evening, were held on Thursday afternoon from St. John's Church, with Rev. W. E. Greenhalgh officiating.

Born in Cumberland, England, the late Mr. Wilson formerly lived in the Crow's Nest Pass before moving to Ladysmith 30 years ago. He was a coal miner by trade, but ill-health forced him to retire from that occupation a few years ago. He was a member of the Army and Navy and Air Force Veterans in Canada, and of St. John's Lodge No. 21, A.F. and A.M., under whose auspices the funeral was held. He was a veteran of the Great War, having gone overseas with the 54th Kootenay Battalion, scout section.

Courtenay Association Has Swimming Classes

COURTENAY, July 11 — More than 200 Comox district children are registered in swimming classes conducted by Courtenay Recreational Association's athletic director, Herbert Bradley. Instituted as part of the association's program to develop athletic abilities of local children and to provide instruction in various fields of athletic endeavor, the offer of free swimming lessons has met with an excellent response.

Classes are conducted at a swimming hole on the Tsolum River, and every day finds groups of "Tadpoles," "Minnows" and "Frogs," as the various classes are called, gaining confidence in the water in a series of lessons which will turn out a large number of swimmers before the season is over.

Mrs. William Elliot and Mrs. W. Shepherd assist Mr. Bradley with the smaller children, while a number of mothers on the bank catch up with their knitting.

Of the 218 persons registered, 140 could not swim a stroke before the lessons. Most are now able to swim, and all are making excellent progress, the director disclosed.

The Courtenay Recreational Association and the Red Cross are jointly sponsoring the lessons. Each pupil is paired off with a "buddy," and the pair keep watch on each other at all times. One of the recurring thrills of the period comes with the cry "Buddies," when each swimmer rushes to hold up the hand of his mate, thereby showing he is on the job.

Parents are loud in their praise of the instructor, whose friendly and cheerful manner creates an atmosphere of confidence among the pupils and turns the lessons into a game.

4 IN MEMORIAM

DAVIES — In loving memory of my dear son, P.O. Writer Allan Morton Rengin Davies, R.C.N.V.R., Drowned at Lost Lake, July 12, 1943.

Gone, dear son, but not forgotten.
Peace be with you, while you sleep.
Loaned awhile by the dear Saviour,
Only memories we can keep.
Trusting in God's holy promise
That we two shall meet again.
This our only consolation:
Our earthly loss is heaven's gain.
[illegible] with us are your kind deeds
[illegible]
Richer are we for your short stay among us.
For you were loyal and loving and kind.

—Greatly missed by Mom, Ray and family.

REDGRAVE — In memory of Sergt.-Major Stephen Harold Redgrave, M.M., 1914-18, who passed away at Shaughnessy Military Hospital, July 11, 1941.

Heaven's morning breaks and earth's vain shadows flee;
In life, in death, O Lord, abide with me.

Ever affectionately remembered by his wife and daughter.

BECAUSE rubbernecking interest is still very great, I think I'll have ANOTHER whack at the flying disk. As it's getting so, if U haven't seen one, your not hep, rather a simpleton.

BUT before I do, I'd like U to [illegible]. They are all lately walnut, even the sides and equipped with marvelous mirrors and by selling a block and making a little we ran [illegible] one in YOUR bedroom for only [illegible] cash or tailored terms.

Just as we wrote the billet DAY
About these saucers that RICOCHET
Each Mr. Too [illegible] to the bush of CauseWAY
Here something different in the MILKY-WAY.
The latest a dame in a CABRIOLET
Saw a man on a spreading BUNGALOW,
And another act on MONTEREY,
Saw a piano of PAPIER MACHE,
& a sweet young thing at Cadboro Bay,
Said she saw a Bridal BOUQUET
While sprawled on her boat ANCHORS-AWAY.
She even saw her WEDDING DAY
And a soldier out near the HALFWAY,
Saw the Serai blowing REVEILLE
While a driver of an old DRAY
Saw a horse who was running AWAY
And a cook walking down a GANGWAY
Saw what he shot a lovely SOUFFLE
At the same time a tourist from BAY JOSE
Saw a jar of CLOISONNE
& a man on a tee the "FLYING SPRAY,"
Saw a horse of DAPPLE-GRAY
And another saw a POPIN-JAY,
Saw a "dream" in a NEGLIGEE
Stories like this we've heard all DAY
Each swears true & NOT HORSE PLAY
Sizing them all up here we SAY
We think they're plates from Ma's TRAY
Sleepy lunch plate jettisoned AWAY
By an airplane hostess in the YONDER-GREY,
Doing light housekeeping on a BEAM-HIGHWAY
A dish-washing stuel vand try ROOBAY

HUMBER BROTHERS furniture

IT PAYS TO TRY GRAY'S
At present it looks as if we'll just have to keep on asking you folks, What have you got that you'd like to sell us? because although we are buying more than we ever bought before, our stock is selling so fast that it seems we can't keep things in this store long enough to advertise them. If you have any clean, useful furniture please phone us. We pay good prices and we pay cash. Call in at our new location at 721 Johnson Street, just half a block up from Douglas. We may have just the things you are looking for, and most people know that when they buy from us they are well satisfied.

ATTENTION!
CHURCHES AND ORGANIZATIONS!
A LARGE ESTATE IN THE PICTURESQUE GULF ISLANDS midway between Victoria and Vancouver. The main dwelling contains 36 rooms (space) THIRTY-FIVE and is situated on 40 acres with plenty of waterfrontage, good swimming and fishing. The steamers pass in full view. The dining-room of this house is alone larger than an average bungalow, measuring 36 x 80 ft. We suggest the property would be suitable for a number of uses. Holiday camps, Summer resort, or convalescent home. The post office is 2 miles on a good road. Water and electricity are laid on, and there are also 2 cottages. The house and 11 acres could be purchased for considerably less if desired, and the furniture is also available. A titled English family lived here for years, and to close the estate we are authorized to sell for an extremely low price. House unfurnished, and 35 acres $12,500

New York Stocks

NEW YORK, July 11 (AP) — The Stock Market today stepped out of the week with a burst of strength that lifted leaders to 2 points and put the industrial average at another new high for the past year.

Buying of steels, motors, rails, oils, ... ment of specials again was attributed mainly to the revival of inflationary psychology following stiff coal wage boosts and the expectation of mounting prices for virtually all lines affected by fuel costs. Many skeptics, however, stood aside or trimmed accounts pending more light on consumer resistance.

The Associated Press 60-stock composite was up .7 of a point at 67.3, a top since last February 24. The industrials were up .9 at 95.6, a high since last August. Of 1,064 issues registering, 759 rose and only 142 fell.

DOW JONES' AVERAGES

Thirty industrials, 184.77, up 1.37.
Twenty rails, 48.21, up .76.
Fifteen utilities, 35.85, up .27.
Sixty-five stocks, 65.21, up .76.
Total sales, 1,590,000 shares.

Toronto Stocks

TORONTO, July 11 (CP). — Gold stocks moved forward on the Toronto Stock Exchange today following rumors—denied in London and Ottawa—of impending gold price increases. Producers and near-producers posted substantial advances in low volume turnover. Base metals followed the upward trend, while industrials traded firmly and Western oils balanced gains and losses.

Senior golds posted a solid list of gains, including a point for Dome and fractions for Hollinger, Kerr Addison, Lakeshore and McIntyre, and up to 15c for Aunor, Teck Hughes and Wright-Hargreaves. More than a score of juniors were ahead up to 20c, including Bevcourt, Campbell, Cochenour, Coniarum, Croinor, East Malartic, Giant, Macassa, Malartic, O'Brien, Pioneer and Preston. Base metals were up for nearly all issues trading with fractional gains for the expensive stocks and up to 15c for the others.

London Market

LONDON, July 11 (Reuters) — Firm conditions prevailed in most sections of London Stock Exchange for the greater part of today's session, but in final dealings slight profit-taking reduced gains to some directions.

South African gold shares were undisturbed by the official denial of any change in the gold price, but after going further ahead finished a little under their best levels of the day.

Winnipeg Grain

WINNIPEG, July 11 (CP) — Belgium took 220,000 bushels of wheat in the only export business reported on the Winnipeg Grain Exchange today. Action by the United States Government Buying Agency made specific increases in buying prices for wheat and this was reflected in the deferred months. There was general demand by commission houses. Trading was fairly active. Class 2 Wheat jumped up 8c.

Chicago Grain

CHICAGO, July 11 (AP) — Wheat futures leaped the 10-cent limit today, and July corn climbed to another 1947 high in heavy buying influenced by reports that the Government had raised its price for Southwestern wheat for export. Wheat at Kansas City and Minneapolis also advanced the daily limit at times. There were reactions from the best levels in all three futures markets.

Inn at Maple Bay Has Reopened

When the Maple Inn, Maple Bay, was destroyed by fire in July of last year, the bay and the whole district suffered a great loss.

Now there has arisen from the ashes a beautiful new vacation hotel far superior to the former hostel, one that is entirely modern and as attractive as any on the Coast.

The owners, Mr. and Mrs. G. Archie Seymour, envisioned an inn that would match the widely known beauties of Maple Bay.

The result is a most attractive hotel, with pleasing architectural lines and a commanding view of the bay and surrounding scenery.

Finished in grey stucco, the hotel has 17 guest rooms, with accommodation for some 30 guests in the building. In addition there is an annex of eight rooms which was not destroyed by the fire, and four cottages, providing a total accommodation for some 55 guests.

The rooms have different and attractive color schemes for the walls and furnishings. Some of them have private baths, all of them have hand basins. Throughout, the hotel has very adequate plumbing including showers and toilets, and a laundry room on the ground floor for the use of the guests, including electric washer and ironer.

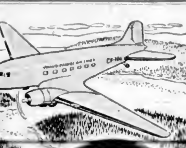

Landscaping on the slope from the hotel to the sea, while new and not quite complete, has been attractively done. Wide steps lead down it, and just above the beach is a bay enclosed by a rock wall, where guests may lounge in the sun. Flower beds and lawns complete the picture.

BRIGHT and cheerful Touralux sleeping cars on the OLYMPIAN HIAWATHAS are a Milwaukee Road "exclusive." Lower berths are longer, higher and wider, the seats are extra comfortable, and you'll be surprised at the big saving over standard Pullmans. Women and children have their own separate Touralux car and coach.

The gay and original Tip Top Grill is open to all passengers. This full car has a snack section for light meals, and a smart cocktail room. In addition, there's a strikingly beautiful dining car with unusual angle seating.

Improved Hiawatha coaches have reclining chairs and spacious lounging rooms. All seats reserved.

Drawing rooms, compartments, bedrooms and berths are available in standard sleeping cars with observation lounge. Later in the year, new all-room sleeping cars with Sky Top Lounge will replace these standard sleepers.

Convenient connections at Chicago for London, Toronto, Montreal and other Canadian points.

"Hounded" by HEADACHES

Blinding pain, constant throbbing can make life a misery. Many headaches may be caused by the failure of the kidneys to perform their normal duty of filtering poisonous wastes and excess acids from the blood. If kidneys fail and poisons remain in the system, headaches, backache, rheumatic pains, disturbed rest may often follow. Dodd's Kidney Pills help your kidneys clear out trouble-making poisons and excess acids so that you feel better—rest better—work better. Get Dodd's today. 148

At the Theatres

ATLAS THEATRE — History was in the making at M-G-M when a chorus of eighty voices began scoring the entire musical background for the mystery drama, "Lady in the Lake," which ends tonight at the Atlas Theatre. Establishing a precedent in film musical recording, the hand-picked choral group is the first to take the place of the customary instrumental [illegible] Robert Montgomery is the star as well as director of "Lady in the Lake." Audrey Totter and Lloyd Nolan top the picture's supporting cast.

CAPITOL THEATRE — Louis de Rochemont has so improved his documentary style of story-telling that his latest picture, "Boomerang," starring Dana Andrews and Jane Wyatt, is a beautifully taut, well-thought-out drama. This movie, now showing at the Capitol Theatre, keeps the documentary style, abandons the documentary point of view. This film cares deeply about its character. "Boomerang" becomes an important picture, emotionally and mentally adult.

OAK BAY THEATRE — [illegible] upon the part of Robert Donat and the vivid English actress, Deborah Kerr, and the sterling direction of Alexander Korda, make "Vacation From Marriage," which is now showing at the Oak Bay Theatre, a picture to be recommended to every type of moviegoer. Filmed against arresting and authentic English backgrounds, this M-G-M London production tells an understanding and emotionally penetrating story of two very average Londoners.

PLAZA THEATRE — Talented Lenore Ulric, one of the great actresses of the New York stage, heads the list of featured players in International's "Temptation," which ends tonight at the Plaza Theatre. Merle Oberon, George Brent, Charles Korvin and Paul Lukas are co-starred in the film, a story of crime and passion in Cairo, Egypt.

ROYAL THEATRE — Zachary Scott and Ronald Reagan combined their power to battle their way out of some bad spots in their current Warner Bros.' film, "Stallion Road," in which they share star billing with Alexis Smith at the Royal Theatre. Portraying buddies in the script, they get embroiled in a free-for-all in a night club sequence, and fighting side by side take on six thugs for the battle royal.

Obtains Rights To Present Korda Pictures

Sir Alexander Korda's productions will be presented in Famous Players Theatres in Canada from coast to coast, it has been announced by J. J. Fitzgibbons, C.B.E., president of Famous Players.

For more than 30 years Sir Alexander Korda has been one of the outstanding figures in motion picture productions in Hollywood and later in England. He was the first producer to bring great distinction to English-made pictures with his memorable "The Private Life of Henry VIII," and many other hits on both sides of the Atlantic.

The Famous Players Canadian Corporation, Ltd., has acquired the rights to exhibit in Canada all the British productions to be made over a period of years by Sir Alexander Korda, through agreements which have been completed with Twentieth Century Fox Corporation.

Many of the films will feature well-known American players as well as British stars.

Foul Bay Takes Top Rung In Boxla Group

Doug Bray's Foul Bay boxla squad took over undisputed possession of first place in the local senior circuit last night as they came through with a pair of late-game goals to squeeze [illegible] Stevenson Park.

The contest, one of the cleanest seen this season, was played before a crowd of more than 300 fans who were treated to a display of combination work by the winners which has enabled them to win their last eight starts in a sensational climb into the No. 1 spot.

Holding their opponents to single counters in the first two periods, while themselves chalking up a quintette of scores, the district outfit slackened off in the third canto and the Orangeshirts were quick to take full advantages of it—scoring four goals to Foul Bay's three.

Jokers continued their rally in the final period, finally tying it up at 8-8, only to see Angie Stewart score what proved to be the winning marker seven minutes from time. Tommy Helbert added the clincher shortly after.

Tiremen Protest Softball Game

A protest lodged by Brentwood Aces, of the Senior "A" Men's Softball League, over Monday's game won by Douglas Tire, 3-2, has been upheld by league officials, according to Tiremen's manager, Jim O'Connor. As the protested umpire's call occurred in the seventh inning, two innings of the game will be replayed prior to a contest between the two teams next week.

However, O'Connor announced that a protest had been lodged by his team over last night's game with Vets, won by the latter, 8-5. The protest arose over a dropped third strike.

Bicycle Fall Injures Boy

Bruce Lawson, of the Orphans' Home, was taken to the Jubilee Hospital yesterday morning when he fell from his bicycle after hitting a telephone pole.

Hospital officials said last night that the boy complained of pains in his head.

He fell to the sidewalk at 10.45 a.m. when his bicycle hit a tele[illegible] side Avenue and Grosvenor Street. Doctors Wolfe and F. M. Bryant attended.

Little Stories for Bedtime

By THORNTON W. BURGESS

MR. AND MRS. BULLY GO HOUSE HUNTING

Bully the English Sparrow and Mrs. Bully made a very good breakfast in Farmer Brown's barnyard. The little people of the Old Orchard watched them at a distance and really didn't know what to make of them.

"Did you ever in all your life see such bold, impudent things?" exclaimed Goldie the Oriole. "Why, they actually take the food from right under the noses of those stupid chickens. If they try anything like that here in the Old Orchard there is going to be trouble. Here they come now. I wonder what they intend to do."

It was quite clear that Mrs. Bully was feeling better natured now that she had had a good breakfast. That's the way with some people. If you want to make them good-natured all you have to do is to fill their stomachs. Funny, isn't it? Anyway, Mrs. Bully was taking a great deal more interest in what Bully was telling her of what he had discovered in the Old Orchard.

"I rather like the looks of the place," said she. "If we can find a good house I think we will stay for the Summer months. We haven't any time to waste, so suppose we start house hunting right away. I believe you said that you have looked at most of the houses. Just take me to the best of them and we will soon decide which one we want and can move in right away."

So Bully led the way from one tree to another in the Old Orchard and they inspected every empty house. Mrs. Bully examined each one of them very carefully. One was too small; she was sure that it would not hold as much bedding as she likes. Another was too exposed. The doorway of another was too big; she was sure the rain would beat in in bad weather. There was one she couldn't find any real fault with and Bully rather hoped that she would decide to take this. But she didn't. When he asked her why, she answered, "Oh, because." And that was all he could get from her. So he sighed and made up his mind that she didn't have any real reason for not taking that house. It was just a notion that she didn't want to live there, that was all.

"Are these all the houses that there are?" she asked at last in a fretful tone of voice.

"All the empty ones," replied Bully. "There are some very nice ones which are occupied. Would you like to look at those, my dear?"

"Certainly! Of course! You didn't suppose I would decide on a house until I had seen all of them, did you?" snapped Mrs. Bully. "If I like one of these, whoever is living there will simply have to move out, that's all."

So once more Bully led the way through the Old Orchard. He stopped first at the home of Winsome Bluebird. It just happened that no one was at home. Mrs. Bully not only looked in, but she went in. She examined it just as thoroughly as she had the empty houses and acted as if she had a perfect right there.

"Why, they actually take the food from under the noses of those stupid chickens."

"It's better than any of the others I have seen, and if we can't find anything else I think it will do," she announced. Little Chippy Sparrow, who happened to overhear her, fairly gasped.

"There's the home of Drummer the Woodpecker over there," said Bully. "It looks very good from the outside, but I haven't had a chance to see the inside. I understand that it is new this year."

"We'll go look at it now," replied Mrs. Bully in a very decided tone and led the way.

But just before they reached Drummer's house Drummer himself appeared in the doorway. Mrs. Bully took one look at Drummer's stout bill and then quite suddenly changed her mind. "Perhaps we better wait until there is no one at home," said she.

Bully's face brightened. "A very good idea, I think, my dear," he answered. "Now suppose we look at the house of Skimmer the Swallow."

Ship to Be Completely Modern On Re-entering Active Service

Preparations are nearing completion for a recommissioning ceremony Tuesday which will take the cruiser H.M.C.S. Ontario out of the reserve bracket and place her in active service.

Within a few days, it is reported, Capt. J. C. Hibbard, D.S.C., and Bar, R.C.N., commanding officer of the [illegible] ment regarding her future activities. Capt. Hibbard, resident of Victoria, succeeded Cmdr. J. V. Brock, D.S.C., R.C.N., who is now executive officer on board.

It is expected H.M.C.S. Ontario will start on a training cruise shortly after entering the active branch.

Her recommissioning will coincide with placement of her sister ship, H.M.C.S. Uganda, into the reserve fleet. Ontario will become the senior [illegible] operating on this coast.

Ontario's peacetime complement of about 600 officers and men has now been organized. Many are from Victoria and other Island cities.

Since the cruiser docked here on the morning of November 27, 1945, she has undergone an extensive reconditioning and refit. And according to Capt. V. S. Godfrey, Chief of Staff, C.O.P.C., she will be one of the most modern cruisers in the world.

Every section and operation of H.M.C.S. Ontario has been affected by the refit. Her engines have been overhauled, armament improved and torpedo tubes modernized, and her navigational facilities have received much attention. Cabins and messes have been completely renovated.

The ship's complex communications system has been improved on a major scale, but details of this work remain secret, along with information regarding radar and other installations.

The heavily-armed Ontario carries nine six-inch guns in three turrets, and ten four-inch guns, in addition to her torpedo equipment. She is the third warship of the British Empire to bear the name Ontario. She is propelled by four Parsons geared turbines each developing 20,000 horsepower, and can steam at 31 knots.

Ceiling Price Held on Lamb

OTTAWA, July 11 (CP). — A seasonal drop in ceiling prices for lamb has been postponed from July 18 to August 31, Prices Board officials announced today.

The higher prices are being maintained for a longer period to encourage farmers to continue marketing quantities of lamb in order to alleviate the present shortage existing in other types of meat.

Halifax Voters Go To Polls Monday

HALIFAX, July 11 (CP). The "tumult and the shouting" in the Halifax federal by-election campaign rose to an 11th hour climax tonight and then died away to a mere whisper as the 48-hour pre-election ban on radio addresses had its midnight imposition.

Voters heard the broadcast voices of the three candidates and their supporters for the last time before going to the constituency's 350 polls Monday. And already traveling salesmen, trainmen and other professional itinerants who will be absent from the county Monday were casting their advance votes.

The candidates — Liberal John Dickey, Progressive Conservative A. A. (Big Alex) McDonald and C.C.F. H. L. MacIntosh — cornered radio time throughout the day, each adhering to his particular campaign pattern.

Pauses Here During Long Cycle Tour

—Colonist Photo

A SUN-TANNED cyclist breezed into Victoria yesterday and casually announced that he had ridden his heavily-laden machine 13,800 miles since leaving London early in March of last year. With New Zealand as his final destination, London-born Eric Cooke plans to travel every mile of the way on his bicycle—except the ocean crossings. Already he has been journeying nearly a year through the United States, will pedal back to the Eastern seaboard before Winter, and return to the West Coast next Spring to ship to the Antipodes.

English Cyclist Arrives in City After Traveling 13,800 Miles

London-born Eric Cooke, who has pedaled 13,800 miles on his bicycle in the last 16 months, is not much impressed by treatment accorded tourists by Canadian officialdom.

In Victoria yesterday after a year of travel in the United States, he said Canadian authorities in England had "treated me rough," and that because of border difficulties in Eastern Canada he had had to cross the Continent south of the line.

"After crossing into Canada at Niagara, I found American authorities would let me re-enter the States for six months with less money than Canada would allow me to stay on for three," the 37-year-old cyclist protested.

When Mr. Cooke left London March 4 last year, his plan was to cross the Atlantic to Quebec and cycle through Canada on his way to New Zealand. But shipping difficulties and his meagre allowance of funds from British authorities forced changes of plans.

In the end, after weeks of delay, he took passage by freighter to New York where he landed on August 3, 1946.

Since then the stocky bronzed cyclist says he has been on the road almost continuously, on tours through the Eastern and Midwestern States and all up and down the western side of the continent before crossing to Victoria from Port Angeles.

Now he plans to tour British Columbia, cross the Rockies before Autumn and work back to the Eastern seaboard through Canada, and come back west again through the States next Spring to take passage to New Zealand.

"I'm just a hog for scenery and you've got everything here," he says. Even before leaving the British Isles he did 1,000 miles of cycling right round the English coast, another 1,000 in Scotland, and a complete circuit of the Irish coastline.

On the road he's independent of almost everything but food stores—carries a tent, groundsheet, sleeping bag, gasoline stove, two cameras and changes of clothing, all on one sports model bicycle.

A tool and die maker by trade, Mr. Cooke long ago made up his mind to emigrate to New Zealand after the war and to see as much of the world as he could en route. Allowed to take only £75 out of England, he has been supplementing his funds by means of lectures and broadcasts.

Hold Last Rites For William Noble

Funeral services were held here Wednesday for William J. Noble, secretary-treasurer of the Hickman Tye Hardware Company, who died Sunday.

For 14 years Island traveler for W. G. Fraser & Company, he was a former partner in the B.C. Hardware & Paint Co., and founder of the Hardwareteria Ltd. on Johnson Street.

In 1933, he became associated with the Hickman Tye Hardware Company.

Born in Brampton, Ont., Mr. Noble had worked in Toronto, Winnipeg, Maple Creek and Vernon, and he is survived by his wife and two sons, Howard and John, all of Victoria.

Hair Seals Constitute Problem For B.C. Commercial Fishermen

British Columbia fishermen have many problems and by no means the least is the presence of hair seals on many large fishing grounds of the Coast.

The seals, about as big as average dogs, mate at this time of the year, and one of their favorite haunts is near the mouth of the Fraser River.

George J. Alexander, Provincial deputy minister of fisheries, said yesterday it was unfortunate that the mating season of the hair seals came at the time salmon were heading for the rivers.

An annual hunt for the elusive seals is now under way at the approaches to the Fraser and at other points along the coastline. The seals constitute a big problem for commercial fishermen. In the first place they play havoc with the salmon run, tearing large chunks from the fish, leaving them dead or so mutilated that when caught they are rated as second or third class fish.

The seals also cause untold damage when caught in salmon nets, ripping the mesh and often ruining gill or seine nets beyond repair.

When presented to an authorized official of the Federal Fisheries Department, the snout of a hair seal brings a bounty of $3.50. A fisherman can also collect $1 per hair seal stomach from the University of British Columbia, which uses that section of the animal for research purposes.

Recently, a group of more than 70 fishermen staged a hunt for the seals off the Fraser River. Not one snout was recovered, although it was believed certain a number of the animals were killed. When fatally injured, the seals have a discouraging habit of sinking, thereby robbing the fisherman or hunter of his bounty.

Fisherman regard the hair seal as one of their greatest enemies, and in the past have been assisted by R.C.A.F. aircraft and Royal Canadian Navy vessels, using depth charges. The seals generally travel in schools.

Mr. Alexander said the animals congregate in comparatively sheltered inland waters and bays.

Although bounties are paid through the Federal Fisheries Office here, Mr. Alexander said: "We often receive seals' noses in this Provincial office through the mail. We always know what's in the parcel before opening it."

Observatory Grounds To Be Cleared

Grounds of the Dominion Astrophysical Observatory, Saanich, are listed for many improvements this Autumn under the $40,000 earmarked for that institution by the Government, Dr. J. A. Pearce, director, announced last night.

More than 80 acres of the grounds are to be cleared of brush and broom which is considered a fire hazard at present. Approximately 2,400 feet of pipe line will run from a concrete reservoir to fire hydrants.

Dr. Pearce explained that at times the carelessness of visitors and tourists has resulted in dangerous fires. The hazard will be greatly reduced by these measures.

A new wire fence will be placed around the area bordering on West Saanich Road and a parking space will be improved near the dome.

Visitors to the observatory and members of the staff who do not have cars will also benefit. A new easily-graded gravel footpath will lead from the main gate to the office door.

Work is expected to commence in early Autumn, Dr. Pearce said.

Greece Honors Seven Canadians

OTTAWA, July 11 (CP)—The Government of Greece has awarded the Golden Aristion Andrias (Order of Gallantry) to seven Canadian army officers, Defence Minister Claxton announced today.

Among those honored was Col. W. S. Zeigler, former artillery commander, First Canadian Division in Italy, and now of Calgary where he is employed with the Alberta Department of Public Works.

A general citation covering the awards indicated that they were bestowed for the moral and technical support given the Third Greek Mountain Brigade during the Second World War.

Chinese To Meet At Port Alberni

PORT ALBERNI, July 11 — About 400 Chinese Freemasons will be in Port Alberni on Sunday to participate in a ceremony which will open the Chinese Freemasons' Temple here.

Feature of the meeting from a public point of view will be the lion dance parade which will move through city streets to the Cenotaph, where a wreath will be placed in honor of the war dead.

THE "LIFE-GUARD"—Formerly a Body-Guard

The life-guard who stands ready for calls for help from ocean bathers is not, in our thoughts, in the same category with a "body-guard," and it comes as something of a surprise that they share the same origin. Perhaps this surprise is due, at least in part, to the fact that in its modern American usage "body-guard" has referred most often to the hired gunmen guarding overlords of crime The body-guards of former times, when they were called life-guards, were protectors whose name no one need be ashamed of, for they were the guards of kings'

The derivation of life is from the Middle English, "lif," which is rooted in the Anglo-Saxon, akin to it there is the Dutch lijf. However, while there has been some controversy about this, the word "life-guard" comes to us really from the German 'leibgarde,' leib meaning body. It had recorded usage in English in this sense as early as 1650, in "A Pisgah Light of Palestine," by Thomas Fuller·

"The Cherethites were a kind of life-guard to King David."

Also, the name Life-Guards was applied to a body-guard of soldiers of the British Army, consisting of two regiments of cavalry, who together with the Royal Horse Guards formed the household cavalry.

And to do the word full justice, in the records called the "Declaration of the Commons Pertaining to the Grand Rebellion in Ireland,' we find.

"Most of the King's life-guards are Irish.

Lands Large Muskie

BLIND RIVER, Ont., July 11 (CP). Bud Young, a tourist from Bluffton, Ind., today moved to the front of the race for honors that go to the person catching the largest muskellunge of the season.

Shortly after dawn Young, using an 18-pound test line and a heavy spoon, landed a 43-pound silver muskie after a 45-minute battle. The fish was 57 inches long largest to be taken from nearby Lake Lauson this season. Blind River is 75 miles east of Sault Ste Marie Ont
